

CARA SAVEN
WALL DESIGN

about

**WE HAVE BECOME
A WALLCOVERING
RESOURCE FOR
INTERIOR DESIGNERS
AND ARCHITECTS
AROUND THE WORLD**

**LOCALLY PRODUCED
TYPE II CERTIFIED
SEAMLESS
WALLPAPER**

Cara Saven Wall Design was established in 2006 under the name Cara Saven Photography and was relaunched in 2016 under the current name.

Due to the breadth of designs we have created, our brand has become a staple wallcovering resource for interior designers and architects around the world.

Our approach is simple. Service, delivery and quality are key to what we do.

To add to this the quality of our wallpaper substrate options is of the highest standard and are certified to international hospitality specification.

design collection

**OUR WEBSITE
FEATURES OVER
2000 DESIGNS**

**BESPOKE
DESIGNING
SETS US APART**

Our website features over 2000 designs, divided up into easy-to-search categories, which offer an extensive choice of style and treatment. All of which can be further customised in terms of colour, positioning or addition of elements and design scale.

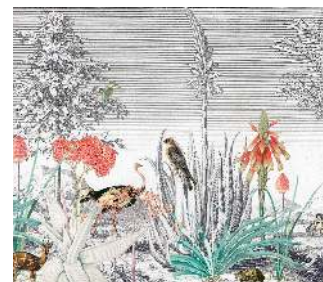

Creative custom designing to a client's brief or through our own conceptual development has set us apart. In design we bring the vision of a project to life.

CS&CO

CS
&CO

**CARA HAS TEAMED
UP WITH A FEW OF
HER FAVOURITE
LOCAL ARTISTS**

CS&Co is a newly established collaborative range between Cara Saven Wall Design and a select few artists, all of whose works can be customised to your wall size.

No longer limited to paper and canvas art prints, these works can now be curated as dynamic wallpaper, made in wallcovering heaven, for an interior space.

hotel scope

**THE HOTEL
SECTOR
IS AT THE
FOREFRONT OF
OUR FUTURE
GROWTH**

We have worked with many top hotel groups and have the capacity to provide a customised and full turnkey service to this industry, specialising in large scale projects.

As a full service design boutique, we handle every step of the process, from the designing or sourcing of images to printing on a wide range of media. From wallpaper to vinyl, canvas and art prints, our larger than life pieces add lasting value and plenty of impact.

We have developed our own locally produced, and internationally certified Type II wallpaper substrate. This is a seamless product of the highest quality at an economical price.

SEAMLESS VIVIDTEX WALLPAPER

VividTex forms part of our seamless wallpaper category which means it can be printed to 3 meters in height and up to 50 meters in width. This product has a textile finish and is printed using a dye sublimated machine wallpaper, which offers a print quality that gives you an intensity of colour and can print sharp detail. It is reusable and completely scratch-proof, making it perfect for high traffic areas like hotels, restaurants, and public spaces. It is also easy to keep clean and can be wiped down using water and foam from products without ammonia.

Because of its textile quality, it is not recommended to use for butt joins (where your walls are higher than 3 meters and you need to join the wallpaper together). Unless you are happy with an overlap join, we suggest using the next product, UV seamless wallpaper. This product is 100% local to South Africa and is category Type 2.

SEAMLESS UV PRINTED WALLPAPER

UV Seamless forms part of our seamless wallpaper category as it can be printed to 3 meters in height by up to 50 meters in width - with no join lines. This seamless wallpaper has the look and feel of canvas wallpaper and is used when we have walls of over 3 meters and we want to create a "butt" join (where the joins do not overlap). It is especially suited to bathrooms and high moisture areas due to its specialised backing. If the wall has been primed and prepped correctly, it can be reused on removal. UV Seamless wallpaper is 100% local to South Africa and is category Type 2.

STANDARD PANELLED WALLPAPER

Our standard panelled wallpaper is printed using the latest UV inks and comes in panels of 1.2 metres wide. These panels are expertly "stitched" together on the wall by a qualified installer. Each panel comes with a 20mm overlap that can either be left as is or can be cut away by the installer to create what we call a "butt" join (both panels are at the same level). This wallpaper has a paper backing and is easy to remove from the wall. It cannot be reused once removed.

SEAMLESS LITETEX WALLPAPER

This is our most economically priced, high quality, seamless wallpaper. Being a lightweight substrate makes it ideal for ceiling applications, it's also suitable for walls that have a very smooth surface and are painted white. It is a dye sublimated wallpaper, which guarantees a scratch-proof print, with enhanced definition and colour.
