Project Overview

Miftah An-Nur Islamic International School is inviting interested contractors to submit proposals for roofing works to the school's existing futsal court area.

The project aims to improve protection from sunlight and rainfall, enhance usability of the sports facility, and address rainwater ingress affecting nearby school facilities.

Project Objective

The proposed works are intended to:

- Provide suitable roofing over the futsal court area.
- Provide roofing over the existing viewing stand.
- Improve comfort and usability during sporting activities.
- Minimise rainwater entering adjacent areas during periods of rainfall.
- Deliver a practical and durable solution suitable for a school environment.

Contractors are encouraged to propose an appropriate solution based on their experience and expertise.

Existing Site Information

The project area comprises:

- An existing futsal court of approximately **27m x 17m**.
- An adjacent viewing stand of approximately **14m x 5m**.
- A nearby canteen area.

During periods of rainfall, rainwater ingress may occur in parts of the canteen area. Contractors should take this into consideration when developing their proposed solution.

All dimensions, site conditions, and existing arrangements shall be verified by interested contractors during any site visit arranged by the School.

Site Photographs

The following photographs are provided for general reference purposes only and are intended to give interested contractors an overview of the existing site and surrounding facilities.

 A wide-angle photograph of a futsal court with green artificial turf and black safety netting. The court is situated on a grassy area with a cloudy sky in the background.	 A photograph showing the futsal court from a side angle, highlighting a yellow viewing stand with a black metal frame in the foreground.
Photo 1: Overall view of the futsal court	Photo 2: View of the futsal court and the viewing stand
 A photograph showing a white building on the left, a grassy path leading to the futsal court, and a viewing stand in the distance.	 A photograph showing a white building on the left, a grassy path leading to the futsal court, and a viewing stand in the distance, from a slightly different angle than Photo 3.
Photo 3: General site overview showing the relationship between the project areas.	

The photographs are provided for information only and shall not be relied upon for design, measurement, pricing, or technical assessment purposes. Contractors will be informed of any subsequent site visit arrangements to verify site conditions and obtain further information.

Proposed Roofing Works

The proposed works may include:

- Roofing of the futsal court.
- Roofing of the viewing stand.
- Lighting for futsal court and viewing stand.
- Additional measures to improve weather protection and minimise rainwater ingress into adjacent areas.

Contractors may recommend alternative or supplementary solutions where appropriate.

Roofing Considerations

The proposed solution should:

- Be suitable for outdoor use and local weather conditions.
- Provide effective protection from sunlight and rainfall.
- Be durable and suitable for regular use.
- Include appropriate rainwater management measures.
- Consider the existing site conditions and surrounding facilities.

Expression of Interest Submission

Interested contractors are requested to submit:

- Company profile.
- Relevant project experience.
- Brief description of similar projects completed.
- Contact details of the company's representative.
- Any additional information demonstrating capability to undertake the proposed works.

Contractors will be informed of the next stage of the procurement process, which may include a site visit and submission of a detailed proposal and quotation.

Compliance Requirements

The proposed solution shall comply with all applicable statutory and regulatory requirements. Contractors are responsible for identifying any approvals, permits, or authority submissions that may be required for their proposed solution and shall address these as part of their submission.

Additional Notes

Miftah An-Nur Islamic International School reserves the right to:

- Accept or reject any submission.
- Request additional information from interested contractors.
- Invite selected contractors for a site visit and further discussions.
- Discontinue or amend the procurement process at its discretion.
