Head of Investment Strategy and Research, Partner

## UNDER THE SAME STAR

**Ten years ago, we founded BlueStar Investment Managers with a clear vision: to build an independent investment boutique founded on expertise, research, innovation, and responsibility toward the capital entrusted to us.**

Ten years later, the three founding partners are still in place, guided by the same spirit and determination that defined the early days.

**From the very beginning, we adopted a rigorous approach based on in-depth analysis, risk control, and continuous improvement.** We believe that active management requires constant study, the ability to adapt to market cycles, and above all, alignment of interests with investors. Performance is a consequence of process – not the other way around.

As we enter our tenth year of activity, we are pleased to share a recognition that, for us, represents a confirmation of the work carried out over time: **all of our funds have achieved strong Morningstar ratings within their respective categories:**

- ★ **Kyron BlueStar Global Thematic Allocation (GTA) – 4 stars (last 5 years)**
- ★ **Kyron Dynamic Opportunities – 4 stars (last 3 years)**
- ★ **Kyron Multi Income – 4 stars (last 5 years)**
- ★ **Kyron BlueSpace Fund – 5 stars (last 3 years)**
- ★ **OneLife Fund – 4 stars (last 3 years)**

The five funds have recently been joined by the **Made in Europe AMC**, dedicated to the theme of European sovereignty, which in just a few months has already attracted strong interest and delivered promising results.

We view these recognitions not as a finishing line, but as an additional stimulus. Ratings reflect consistency, risk control, and the ability to generate value over time, yet **our focus remains unchanged: protecting and growing capital through discipline, method, and a long-term vision.**

We continue to believe in independent research, innovation, transparency toward investors, and a corporate culture driven by meritocracy and continuous improvement.

**We would like to thank the investors, partners, and our outstanding team who have shared this journey with us. We look to the future with the same determination that guided us from day one: building sustainable long-term value with commitment, seriousness, and responsibility.**
