

# **LUBRIGUARD™**

## **Full Synthetic Snow Plow Hydraulic Oil**

**Lubriguard Full Synthetic Snow Plow Hydraulic Oil** is suitable for use in most snow plows. Formulated with sophisticated additives to prevent wear, foaming, oxidation and corrosion. Engineered to provide outstanding low temperature performance down to -50°F. Always consult your owner's manual for specific recommendations.

### **Benefits**

- Protects against Freeze-up
- Non-Foaming Antiwear Formula
- Protects High Pressure Hydraulic Systems
- Protects to -50°F

### **Typical Characteristics:**

SAE Viscosity	5W
@40 °C, cSt	22
@100 °C, cSt	4.88
Viscosity Index	152
API Gravity	38.7
Sp. Gravity	0.8314
Pounds/Gallon	6.92
Pour Pt., °F	-50
Rust Test	Pass
Dielectric Strength*	35kV

\*Note: A dielectric strength >25kV ensures the product is non-conductive. The dielectric strength value applies to "point of manufacture" of packaged products. This will decrease if the oil becomes contaminated with dirt, or even a very small amount of water.
