SINCE 1994

Jerai Fitness is an Indian manufacturer with over three decades of expertise in designing and producing world-class fitness equipment. The company caters to a diverse clientele, including commercial gyms, hotels, corporate wellness centers, and real estate projects, serving both the domestic market and 26 international markets such as USA, UK, Germany, Japan, Australia, Sweden, UAE, Saudi Arabia, and France, among others. With 9 official international distributors, Jerai Fitness ensures seamless access, service, and support worldwide - combining global reach with strong regional impact.

Through years of industry experience, Jerai Fitness has developed strong capabilities in manufacturing processes, inventory management, distribution efficiency, and customer service, enabling it to consistently deliver reliable and innovative fitness solutions. A pan-India network of 15 exclusive showrooms strengthens customer engagement, provides accessible support, and enhances brand reach.

As a pioneer in automated manufacturing, Jerai Fitness incorporates robotic welding, advanced assembly techniques, and high-precision Turkish and Japanese machinery into its production processes. This modern infrastructure ensures accuracy, durability, and compliance with international standards, while enabling the company to scale operations, meet increasing global demand, and remain competitively priced.

CARDIO SERIES

The Cardio Series *is built for fitness spaces that demand high-intensity performance and an engaging user experience. Ideal for boutique studios, gyms, and wellness zones. Equipped with advanced drive systems and ergonomic interfaces, each machine offers smooth, low-impact motion for continuous use.*

FALCON SERIES

The Falcon Series *is designed for mid-tier gyms, commercial fitness centers, and institutional facilities, offering a perfect balance of style and performance. Its easy-to-use adjustments and integrated safety features provide a secure and comfortable training experience, backed by long-lasting quality and dependable durability. Built with heavy-duty rectangular steel construction, reinforced load-bearing joints, and additional 8 mm fail-safe plates, the Falcon Series delivers long-term strength and stability. It features industrial-grade nylon-coated cables and laser-cut high-grade steel half shrouds that enclose the rear weight stack for enhanced safety and a clean, professional finish. The series is equipped with a 220 lbs (100 kgs) weight stack.*

LOAD-ON SERIES

The Load On Series *redefines plate-loaded training with a focus on structure, style, and precision-built for athletes who prefer the raw feel of free-weight resistance. Ideal for high-performance centers, sports clubs, and strength zones, each unit features reinforced loading areas, precision pivot points, and guided movement paths for a powerful, efficient training experience.*
