Experience

Wio bank

Senior Product designer, SME and Retail banking, 2022-

- Creating user experience and visual design for SME and Retail apps for the groundbreaking digital bank in UAE.

Raiffeisen bank

UX/UI, Product designer at Growth team, 2020-2022

- Created end to end flow for new bank customers, from application and waiting for a delivery to receiving and activating the card in the app, working hand to hand with UX researchers, using data from analytics and current customer experience.
- Worked with the brand team to develop a new positioning and character for the bank through visual language in the interface and content.
- Provided masterclasses to help people to learn Figma.

Live Typing

Team-lead, UX/UI Designer, 2015-2020

- Created digital solutions for more than 15 mobile apps and web services, from startups to large companies.
- Worked closely with product managers, developers and analytics. Communicated and discussed design solutions directly with clients.
- Led and helped to develop a small team of designers.

Omsk State University

Graphic designer, 2014-2015

- Designed business cards, brochures, the university website and various advertising media.
