Prepared for PhonePe

September 2022

Client Introduction

PhonePe is a mobile payments app that allows you to transfer money instantly to anyone, by using just their mobile number. Their goal is to make digital payments so easy, safe & universally accepted that people never feel the need to carry cash or cards again. They were Hiring. Check out the PhonePe careers page and find opportunities for you.

Test Scope

- Functional
- UI
- UX
- Database
- API Testing

Test Coverage in contrast to application scale

Platform Test Coverage

Environment

- Prod
- Stage
- UAT
- Pre-Prod

Challenges/Problem Statement

- Bug leakage into RC (Release Candidate) builds

- Challenging timelines to chase
- Late night shift requirement for backend migration

3

Moolya Value Delivery

- Brainstormed and worked on RCA to stop bug leakage into RC builds
- Worked on critical firmware issues and OTA and gave the signoff.
- Critical resource in Soundbox device testing
- Went beyond working hours to make the release smoother
- Worked late night from 10 pm to 1 AM for an important backend migration to minimise the impact
- Worked with Dev to finish a feature testing within current sprint, thus ensuring smooth transition to next sprint.

Test Execution Reports

Testimonials

Product Updates At Moolya

At Bugasura, We look at user feedback and reviews to provide pure value and serve them the best we can.

We found out that our users were having trouble with Jira sync. And last week's sprint was all about it.

We got this **Big Big Jira Update** for you**!**

Bugasura and Jira are now in complete sync

Mapping Fields: Map both the system and custom fields between Bugasura and Jira.

Auto push: Sync all issues in one click

Pull feature: Changes made to issue details inside Jira, will also reflect in Bugasura.

Auto-sync: Issue details, comments, and attachments are all synced automatically when an already synced issue is changed.
