31	How to lay cement tile		

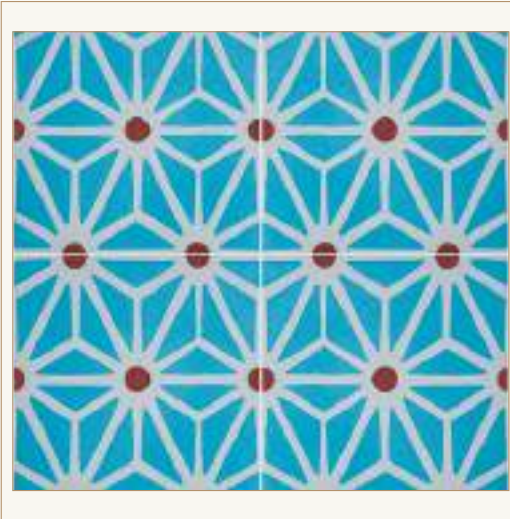

From the intricate jali-work from the dunes of Rajasthan, India, to the joyful riot of colors from the sunny streets of Marrakech, we explore and unearth styles hidden within stories from each region, and bring them to life in our collections. To build a space you love is to create a living, breathing extension of who you are, and what you believe in. From the doors to walls, to the floor, each element is a reflection of your consciousness and aesthetic. And if the beauty of what adorns your home matters to you as much as how it's made and its makers, we welcome you to Lioness. Melding art and design with a purpose, Lioness is passionate about creating timeless, environmentally-friendly tiles for homes, transforming everyday spaces into the extraordinary. With rich colors and designs evocative of our diverse artistic past, we adorn our tiles with art that lives and thrives around you and forms an indelible part of what makes your house, a home. Fashioned by the capable hands of our local artisan-partners based in Rajasthan, India, each tile is a testimony to the skill and attention to detail of the women artisans, who enjoy a sustainable and flourishing livelihood for their incredible work.

HOW ARE CEMENT TILES MADE

Cement tiles have become increasingly popular in recent years for their aesthetic appeal and durability. Made from a mixture of cement, sand, pigment, and water, these handcrafted tiles are created with a unique and exclusive look. The mixture is poured into a mold to create the shape of the tile, which is then cured and polished to a smooth, durable finish.

These tiles are especially heat and slip resistant, making them ideal for use in home remodeling projects. With a variety of colors, patterns, and styles to choose from, these tiles can be used to create bespoke designs that will make any room stand out. The use of terrazzo tiles and encaustic cement tiles is especially popular for creating intricate and unique designs.

Cement tiles are not only beautiful and durable, but they also add a distinctive touch to any home.

HOW TO LAY CEMENT TILE FLOORING

Step 1. Surface Preparation:

Ensure that the surface where the tiles will be installed is clean, level, and structurally sound. Remove any existing flooring or debris and repair any cracks or imperfections.

Step 2. Tile Layout:

Plan the layout of the tiles before installation, considering the design, pattern, and placement. Dry fit the tiles to determine the arrangement and make any necessary adjustments.

Step 3. Adhesive Application:

Apply a suitable adhesive or mortar to the prepared surface using a notched trowel. Follow the manufacturer's instructions for the recommended adhesive type and application thickness.

Step 4. Tile Placement:

Carefully place each tile onto the adhesive, pressing it firmly and wiggling it slightly to ensure good adhesion. Maintain consistent spacing between tiles using tile spacers if desired.

Step 5. Grouting:

Once the adhesive has cured and the tiles are firmly in place, it's time to grout the joints. Prepare the grout mixture according to the manufacturer's instructions and apply it using a grout float, making sure to fill all the gaps between the tiles.

Step 6. Grout Cleaning:

After the grout has partially cured, use a damp sponge or cloth to clean the excess grout from the tile surfaces. Rinse the sponge frequently and avoid scrub.

Step 7. Polishing:

Polishing enhances the natural sheen and richness of cement tiles. Use a fine abrasive followed by a suitable tile wax or polish for a smooth, glossy finish.

Step 8. Sealing:

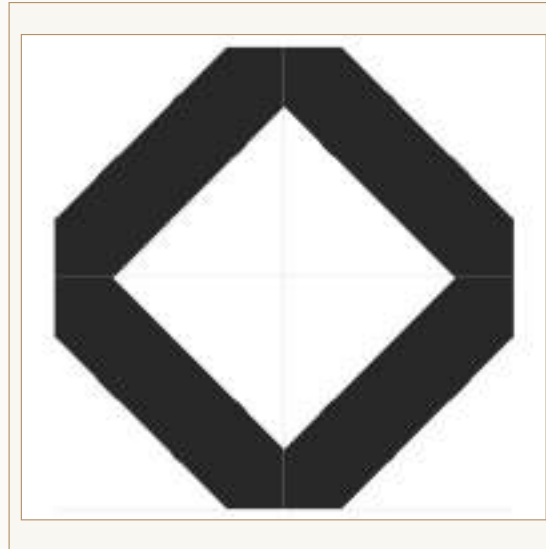

Sealing is recommended to protect the surface from staining and to enhance durability. We recommend 3-4 coats of MYK LATICRETE MaxiSeal Sealer.

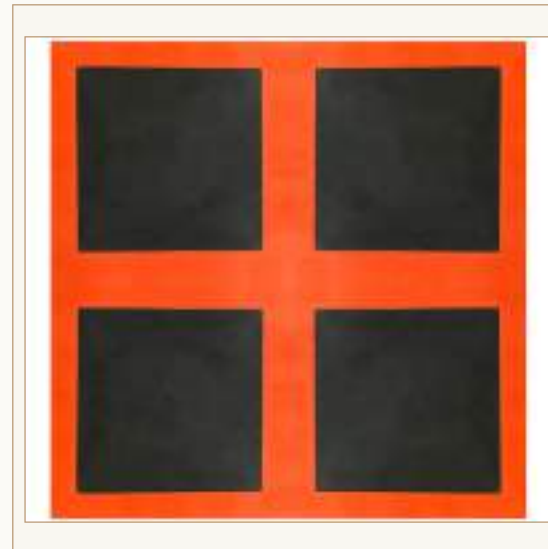

Step 9. Drying and Curing:

Allow the installed tiles to dry and cure for the recommended period of time before subjecting them to heavy foot traffic or cleaning.

CEO'S PEN

We are talented, and strongest but may not be born with the courage. We all learn it but few may need little support to show courage to take on the challenges and show their talents. Let's do small things differently to support each other to create an equal and enabled society.

At Lioness Tile, we are proud of the incredibly talented and creative team of women that form our core. But there is so much more to do, and we as a society need to collectively challenge dated notions and create a level playing field for women and girls everywhere. This international women's day, we share our thoughts and initiative toward this much-needed change and the road ahead.
