

LPR SOFTWARE

Detects licence plates in real time

ABOUT

icetana's Licence Plate Recognition software integrates with icetana's Safety and Security product to offer advanced capabilities for accurately identifying and tracking vehicle licence plates.

METRIC HIGHLIGHTS

ACCURATE

Processing all plates

REAL TIME

Licence plate processing

SCALABLE

For 1000's of cameras

INTEGRATES

With your existing camera and VMS systems

CHALLENGES

Manual monitoring of licence plates and real time identification of banned or VIP vehicles is impractical. Without AI, surveillance teams are unable to track which vehicles are entering or leaving the site.

Manually tracking licence plates

VIP Monitoring

Banned Monitoring

SOLUTION

icetana Licence Plate Recognition software integrates with your current system and cameras. After installation, it initiates a straightforward three-step process.

1

Create new watchlists

With either allow or deny to your premises.

2

Enter licence plate details and add them to the relevant watchlist

3

Option to configure different Livewall's with different vehicle lists

Receive distinct alerts for allow and deny watchlists to stay informed when a vehicle enters your site.

BENEFITS

1

Quick to Set up

No need to spend hours setting up our LPR software.

2

Can enter vehicle information against licence plate

Ability to enter any desired information for specific licence plates.

3

High Accuracy

High accuracy working on all vehicles with a licence plate.

4

Instant alert of the vehicle to Livewall

When a vehicle from your allow or deny list enters your site, a real time alert will be displayed on your Livewall.

USE CASES

VIP recognition

Allows for the special treatment of VIP members with personalised greetings and exclusive services.

Banned cars

Detect banned vehicles in real time to prevent them from gaining access to your site.

Access control

Only allowed vehicles to enter restricted areas, for example, loading docks or specific parking spaces.

Smart parking management

Monitor and regulate private or public parking in real time by tracking vehicle movements and managing access control.

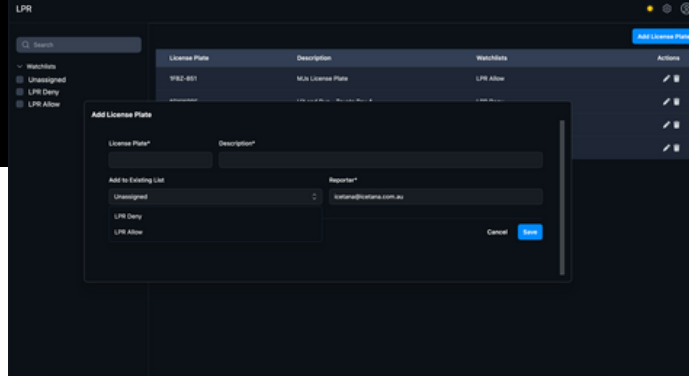

Stolen vehicle recovery

If you enter a stolen vehicle number plate and they enter your site, you will be alerted.

24/7 real time monitoring

Vehicle of interest enters site and needs to be monitored.

License Plate	Description	Watchlists
1FBZ-851	MJs License Plate	LPR Allow
1GXW295	Hit and Run - Toyota Rav 4	LPR Deny
129EFV	Suzuki Swift - WAPOL Alert List	LPR Deny
