Rentals to Get You Back Up & Running

With a fleet of specifically-built transformers and other rental equipment, High to Low Voltage is here to ensure that you can get back up and running in emergency situations, temporary applications, and other short and long term needs.

Our fleet of specifically designed transformers is ready to ship at a moment's notice. Our transformers and switchgear are "Rental Ready," arriving to you in specially designed cages that allow for forklift-able and movable applications. With 25kV, 15kV, and 5kV Primary Power down to 600V and 480V, our transformers are ready for industrial, commercial, and renewable power needs.
