All NorthTec campuses
are smokefree.

The information contained in this publication indicates offerings currently available. This information is correct at the time of printing but may be subject to change. While all reasonable efforts were made to ensure that the listed courses are offered and regulations are up to date, NorthTec reserves the right to change the content, course costs or method of presentation, or to withdraw any programme or part thereof, or impose limitations on enrolments should the circumstance arise.

Kia Ora, Welcome to NorthTec

This guide provides key information about the secondary to tertiary pathway options available to secondary school students. These options will help guide your students on their journey, and give them an insight as to what it might be like to study at NorthTec.

The programmes and experiences provided here at NorthTec are practical, purposeful and aligned to further study options. We support students at secondary school by providing additional experiences and opportunities not available at school that will assist them in their transition to tertiary study and employment.

The 2026 pathway offerings in this booklet are aligned with the Vocational Pathways which will allow students to gain credits that contribute to their National Certificate of Educational Achievement (NCEA) under the vocational pathways.

NorthTec is happy to work with schools to provide solutions that meet the needs of students at your school. We welcome your comments, requests for information and suggestions about how we can help, and work more closely together.

Vocational Pathways

At NorthTec, our programmes have been structured to align with the vocational pathways you will be familiar with.

Vocational pathways are a way of helping students to see how their strengths, interests and achievements relate to future study options and job opportunities.

The table below illustrates how our offerings at NorthTec align with the 6 vocational pathways.

VOCATIONAL PATHWAY	STAR AND TASTER COURSES		TRADES ACADEMY
MANUFACTURING & TECHNOLOGY	Automotive Taster Automotive Mobile Workshops	MIG or OXY Acetylene Welding Wheels and Tyres Auto Distance	Automotive Academy Mechanical Engineering Academy
CONSTRUCTION & INFRASTRUCTURE	Waka-Ama Hoe (Boatbuilding)		Construction Academy
SOCIAL & COMMUNITY SERVICES	Learners Licence Prep		Health Academy
PRIMARY INDUSTRIES	Use of Chainsaw Practical Fire Safety Hydration and Nutrition ADD: ATV, Pest Operations, Fencing, LUV		
SERVICE INDUSTRIES	Barista Food and Beverage Basic Pastry Basic Pasta Basic Meat	Hot and Cold Canapés Hot and Cold Desserts Cookery 2 Basic Sponges, Cakes and Scones	Cookery Academy Hair & Beauty Academy Food & Beverage Academy

Choosing the best option

Our options for high school students are aimed at rangatahi from year 9 through to year 13. This table will help you identify which programme or activity is most suitable for your students.

	STAR AND TASTER COURSES	TRADES ACADEMY PROGRAMMES
ELIGIBILITY	Student must be enrolled in a secondary school and at either Y9 – Y10 for Taster Courses and Y11 – Y13 for STAR Courses	Student must be in Year 12 – 13 at secondary school
STRUCTURE	Short course at NorthTec	Part-time study at NorthTec
COURSE DURATION	Between 1 day to 5 days	1 year (once or twice a week at NorthTec)
COST	Free (through funding from your secondary school)	Free
QUALIFICATION TYPE	Unit standard credits towards NCEA qualification	Tertiary qualification and any unit or achievement standards successfully completed during the programme will go towards NCEA qualifications

Tasters

Tasters are designed to give students a hands-on experience of what it might be like to study at NorthTec. As many students are undecided on what they want to do when they leave school, tasters can provide students with new experiences which create an interest in a pathway on to further study and employment. Tutors can also discuss what subjects students will need to take in Year 11-13 to follow a certain pathway.

As our taster programmes do not have credits attached to them, they are aimed at students in Years 9 and 10.

Automotive Taster

Intro to Automotive

What is this course about?

Students will be doing various workshops on motor vehicles. They will also learn how to select and use hand tools and workshop equipment for an automotive application.

What to wear?

Old clothes to work in. Closed shoes are compulsory.

Date: Upon application

Course Length: One day

Time: 9.00am – 2.30pm

Course cost: \$75.00 plus gst per student

This course is offered at the Future Trades Campus,
Dyer Street, Whangārei.

Minimum 8 students – Maximum 12 students.

Hospitality Taster

Barista Taster

What is this course about?

Students get the opportunity to experience preparing and making coffee in a commercial hospitality environment.

What to wear?

School uniform, long trousers, closed shoes.

Date: Upon application

Course Length: One day

Time: 9.00am – 3.00pm

Course cost: \$70.00 plus gst per student

This course is held in the Hospitality Building,
Raumanga Campus, Whangārei.

Minimum 10 students – Maximum 12 students.

Cookery Taster

Finger Food Taster

What is this course about?

Students get to cook and prepare finger foods in a commercial kitchen.

What to wear?

School uniform, long trousers, closed shoes.

Dates: Upon Application

Course Length: One day

Time: 9.00am – 3.00pm

Course cost: \$70.00 plus gst per student

This course is held in the Hospitality Building,

Raumanga Campus, Whangārei.

Minimum 10 students – Maximum 15 students.

Environment and Conservation

Environmental and Conservation Taster

What is this course about?

Are you interested in learning about how to protect our natural environment and native plants and animals in New Zealand?

Join us for a day to learn about our amazing freshwater wildlife, how to monitor mammalian predators like rats and hear stories about conservation in New Zealand.

During the day we will start in the classroom to set the scene for environmental management. We will visit a local stream, take samples of invertebrates and use high powered microscopes to identify these incredible critters.

What to wear/bring: Closed shoes, gumboots (we have some available if needed), raincoat, lunch and water bottle.

Date: Upon Application

Course Length: One day

Time: 9.00am – 2.30pm

Course cost: \$50.00 plus gst per student

This course is held in Raumanga Campus, Whangārei.

Minimum 8 students – Maximum 20 students.

Star Courses

NorthTec's STAR courses offer meaningful and real training opportunities for Year 11-13 secondary school students.

NorthTec STAR courses provide a pathway to tertiary education and a future career. Students will be able to experience tertiary education as well as gain credits towards their NCEA qualifications.

Manufacturing and Technology Sector

From hands-on production and assembly to cutting edge research, from massive machines and busy production lines, to individual crafts or computer design, this sector covers a range of options. You'll be working indoors most of the time, with tools, machinery and equipment, or maybe a computer. You might be fabricating, installing, fixing or maintaining systems, or doing a job involving lots of thinking, planning or making lots of calculations.

There's a mixture of skilled jobs across the sector. In the engineering industry in particular, people have the highest job satisfaction of all jobs. This sector is a big employer – the second largest in New Zealand. It is also a big earner for the New Zealand economy, making up almost half of all the country's export income. It is a sector the government has identified as a priority area for growth.

Automotive Mobile Workshop

What is this course about?

Students are able to demonstrate knowledge of hand tools and workshop equipment, spark ignition engine operation and under supervision will be able to disassemble and reassemble an engine. NorthTec will come to you and provide a tutor and all the resources.

What to wear?

Old clothes to work in. Closed shoes are compulsory.

Where can this course lead?

National Certificate in Motor Industry (Entry Skills) Level 2.

Unit Standards

Students will be assessed against the following unit standards:

Unit No: 30477	Level: 3	Credits: 4
----------------	----------	------------

Description: Demonstrates knowledge of the operation of petrol and diesel engines.

Unit No: 30476	Level: 2	Credits: 2
----------------	----------	------------

Description: Demonstrate knowledge of tools and equipment used in the motor industry.

Unit No: 21859	Level: 2	Credits: 4
----------------	----------	------------

Description: Select and use hand tools and workshop equipment for an automotive application.

Unit No: 21691	Level: 2	Credits: 2
----------------	----------	------------

Description: Disassemble and reassemble a single cylinder or multi-cylinder four stroke engine under supervision.

Date: Upon application **Course length:** Three days (approx)

Time: 9.00 am – 3.00 pm. (approx)

Course cost: \$250.00 plus gst per student, plus mileage (if applicable).

Minimum 12 students - Maximum 16 students.

This course can be offered at the school premises or at the Future Trades Campus, Dyer St., Whangārei.

Oxy Acetylene Welding

What is this course about?

Students will be able to demonstrate knowledge of oxy acetylene welding in the motor industry.

What to wear?

Old clothes to work in. Closed shoes are compulsory.

Where can this course lead?

National Certificate in Motor Industry (Entry Skills) Level 2.

Unit Standards

Students will be assessed against the following unit standards:

Unit No: 30570 Level: 3 Credits: 3

Description: Demonstrate knowledge of welding plant in the motor industry.

Unit No: 21685 Level: 2 Credits: 3

Description: Use the oxyacetylene welding process in the automotive industry.

Date: Upon application

Course length: Four days (approx)

Time: 9.00 am – 3.00 pm (approx)

Course cost: \$375.00 plus gst, per student.

Minimum 10 students – Maximum 12 students.

Note: This course is held at the Future Trades Campus, Dyer St, Whangārei.

MIG Welding

What is this course about?

Students will be able to demonstrate knowledge of MIG welding in the motor industry.

What is this course about?

Old clothes to work in. Closed shoes are compulsory.

Where can this course lead?

National Certificate in Motor Industry (Entry Skills) Level 2.

Unit Standards

Students will be assessed against the following unit standards:

Unit No: 30570 Level: 3 Credits: 3

Description: Demonstrate knowledge of welding plant in the motor industry.

Unit No: 21684 Level: 3 Credits: 3

Description: Use a MIG welding plant in the automotive industry.

Date: Upon application

Course length: Four days (approx)

Time: 9.00 am – 3.00 pm (approx)

Course cost: \$375.00 plus gst,
per student.

Minimum 10 students – Maximum 12 students.

Note: This course is held at the Future Trades Campus, Dyer St, Whangārei.

Wheels and Tyres

What is this course about?

Students will be able to prepare vehicle wheels for balancing and balance a wheel and tyre assembly off a vehicle.

What to wear?

Old clothes to work in. Closed shoes are compulsory.

Where can this course lead?

National Certificate in Motor Industry (Entry Skills) Level 2.

Unit Standards

Students will be assessed against the following unit standards:

Unit No:	21722	Level: 2	Credits: 2
----------	-------	----------	------------

Description: Balance wheels off a vehicle in the motor industry.

Unit No:	21869	Level: 2	Credits: 1
----------	-------	----------	------------

Description: Remove and refit road wheels on a vehicle.

Unit No:	21679	Level: 2	Credits: 2
----------	-------	----------	------------

Description: Demonstrate knowledge of interchanging and balancing wheels in the automotive industry.

Date: Upon application

Course length: Three days

Time: 9.00 am – 3.00 pm.

Course cost: \$250.00 plus gst, per student

Minimum 12 students – Maximum 16 students.

Distance Learning

What is this course about?

NorthTec will provide the full range of Automotive Unit Standard work books for study, at school, towards National Certificate in Automotive Engineering. Schools will complete assessment and NorthTec will moderate at the end of the year.

All unit standards available – please email Gareth Edwards, gedwards@northtec.ac.nz

Course cost: \$300.00 plus gst per unit standard per calendar year

NorthTec will provide an electronic copy of the full range of automotive unit standards, workbooks and assessments.

Mechanical Engineering

What is this course about?

This hands-on programme covers welding and workshop skills. If you're interested in a job in mechanical engineering, manufacturing, and fabrication this is the course for you. Along with the practical skills needed to work in the industry, this course also teaches health and safety, trade theory, and communication skills, giving you everything you need to work in the industry.

What you will learn.

Maintenance of welding equipment and welding processes.

What to wear?

Old clothes to work in. Closed shoes are compulsory.

Where can this course lead?

NZ Certificate in Mechanical Engineering

Unit Standards

Students will be assessed against the following unit standards:

Unit No:	30570	Level: 3	Credits: 3
----------	-------	----------	------------

Description: Demonstrate knowledge of welding plant in the motor industry

Unit No:	21684	Level: 3	Credits: 3
----------	-------	----------	------------

Description: Use a MIG welding plant in the automotive industry

Unit No:	24372	Level: 3	Credits: 4
----------	-------	----------	------------

Description: Manual metal arc weld automotive components

Unit No:	21685	Level: 2	Credits: 3
----------	-------	----------	------------

Description: Use the oxyacetylene welding process in the automotive industry

Unit No:	30475	Level: 2	Credits: 2
----------	-------	----------	------------

Description: Demonstrate knowledge of motor industry engineering tasks

Unit No:	21671	Level: 2	Credits: 5
----------	-------	----------	------------

Description: Carry out general engineering tasks in the automotive industry.

Date: Upon application

Course length: 14 days

Time: 9.00 am – 3.00 pm (approx)

Course cost: \$75 plus gst, per student, per day.

Venue: Future Trades Campus

Minimum 10 students

Construction and Infrastructure Sector

You'll be part of a well-run team that's committed to getting the job done to meet the client's specifications. You'll work indoors and outdoors. Often it'll be dusty and noisy, but you'll also get to feel the sun on your skin and the wind on your face. The hours may vary. You move around from site to site, working with lots of different tradespeople, contractors and clients. You'll have a variety of different tasks to do no matter what your job is, and you'll use heaps of different tools and types of machinery. The work is physical and active – you won't need to join a gym to stay fit. It's hard work, but there are plenty of laughs and jokes with good mates.

It can be exciting, from driving a 30-tonne digger to making something out of nothing – where it never existed before. There's always some paperwork to be done, but there's also an honest day's pay for an honest day's work. You can work for yourself or you can work for someone else. Bottom line: if you like to work hard, respect people, do a quality job and deliver on people's expectations, you can earn it all – the house, the car, the bach, the boat – without having to win them in the lottery.

Waka Ama Hoe (Paddle Making)

What is this course about?

Students will make a wooden paddle for a waka ama. They will design the blade, select and laminate the timber, join the blades to the shaft and then shape their paddle using a variety of hand tools. The paddle will be finished with Danish oil.

What to wear?

Old clothes to work in – not school uniform. Closed shoes are compulsory.

Unit Standard

Students will be assessed against the following unit standard:

Unit No: 12927 Level: 2 Credits: 6

Description: Demonstrate knowledge of, select, maintain, and use hand tools for BCATS projects

Date: Upon application

Course length: Five days

Time: 9.00 am – 3.00 pm.

Course cost: \$350.00 plus gst, per student.

This course is offered at the Future Trades Campus, Dyer Street, Whangārei.

Primary Industries Sector

You could work in the outdoors, in some of the most stunning landscapes in the world, planting, growing or tending animals, trees, and crops. There's also plenty of high-tech toys to play with and plenty of on-the-job training to help you learn to use them. If you're not working directly on the land you may be visiting as an adviser in a service industry – like arboriculture, water or environmental management, the equine industry, or maybe an accountant, mechanic or vet.

There's a huge range and diversity of jobs from hands-on, to science or business roles and heaps of opportunities to learn new skills and move into different areas of each industry. There's always something new as technology and equipment constantly changes. It's a big sector for Māori with a large proportion of New Zealand's forests, fisheries and dairy farms now Māori-owned and operated. No matter what part of the sector you choose to work in, you're contributing to an important and sustainable sector that's one of New Zealand's biggest employers and biggest exporters.

Use of Chainsaw

What is this course about?

Students will learn the requirements of the Health & Safety in Employment Act and demonstrate knowledge of the approved Code of Practice. They will also be able to strip a chainsaw and identify parts, learn basic chainsaw maintenance, basic chainsaw operation and basic cuts.

What to wear?

Old clothes to work in. Personal protective gear, including safety boots, will be provided if necessary.

Where can this course lead?

Level 2 or 3 Forestry training for work in harvesting, silviculture or arboriculture.

Unit Standards

Students will be assessed against the following unit standards:

Unit No:	6916	Level:	2	Credits:	5
----------	------	--------	---	----------	---

Description: Demonstrate knowledge of the rules relating to chainsaw use.

Unit No:	6917	Level:	2	Credits:	12
----------	------	--------	---	----------	----

Description: Demonstrate basic chainsaw operation in a non-forestry production environment.

Date:	Upon application	Course length:	Three days
-------	------------------	----------------	------------

Time:	9.00 am – 3.00 pm	Course cost:	Varies, please enquire.
-------	-------------------	--------------	-------------------------

Minimum 10 students – Maximum 12 students.

Students must be 16 years and older to attend this course.

Venue will vary.

Hydration and Nutrition

What is this course about?

Students will be able to recognise the physical nature of forestry work and describe hydration requirements. They will be able to explain the benefits associated with fluid intake; identify the food categories and explain the role of diet in the physical well-being of forest workers. This course is also beneficial for self-awareness of general health and well-being.

What to wear?

School uniform / casual clothes.

Where can this course lead?

This course is a pre requisite for Level 2 Forestry training, or work in the forestry industry.

Unit Standard

Students will be assessed against the following unit standard:

Unit No: 22994 Level: 3 Credits: 10

Description: Demonstrate knowledge of factors that affect the performance of forestry workers.

Date: Upon application

Course length: Two days

Time: 9.00 am – 3.00 pm

Course cost: Varies, please enquire.

Minimum / maximum 10 students

Venue will vary.

General Requirements

What is this course about?

On successful completion of this course students will be able to demonstrate knowledge of health and safety, general safety requirements, emergency procedures, environmental issues and personal safety in a forestry operation.

What to wear?

School uniform / casual clothes.

Where can this course lead?

This course is a pre requisite for Level 2 Forestry training, or work in the forestry industry.

Unit Standard

Students will be assessed against the following unit standard:

Unit No: 17769 Level: 2 Credits: 5

Description: Demonstrate knowledge of general health, safety & environmental requirements in forestry.

Date: Upon application

Course length: Two days

Time: 9.00 am – 3.00 pm

Course cost: Varies, please enquire.

Minimum / maximum 10 students

Venue will vary.

Environmental Requirements

What is this course about?

Students will learn the environmental requirements in a forestry operation. They will learn the accepted industry practice and standardized procedures accepted by the wider forestry industry as examples of best practice.

What to wear?

School uniform / casual clothes.

Where can this course lead?

This course is a pre-requisite for Level 2 forestry training or work in the forestry industry.

Unit Standard

Students will be assessed against the following unit standard:

Unit No: 17772 Level: 3 Credits: 5

Description: Demonstrate knowledge of environmental requirements in forestry operations.

Date: Upon application

Course length: One day

Time: 9.00 am – 3.00 pm

Course cost: Varies, please enquire.

Minimum 10 students – Maximum 12 students

Students must be 16 years and older to attend this course.

Venue will vary.

ATV Operations

What is this course about?

Our quad bike training course is designed to produce a quad bike rider that can demonstrate the knowledge, skills, and attributes for all essential areas of the units of competency covered under the “best practice” guidelines for quad bike riding in the workplace.

The quad bike training course is targeted specifically at quad bikes used in the workplace. This quad bike course enables the trainee to ride effectively and safely over varied terrain, The trainee will also be able to demonstrate the appropriate responsibilities of a rider with emphasis on accident prevention. A high level of hazard identification and safe decision-making is also promoted as well as riding techniques that minimise negative environmental impact.

What to wear?

Old clothes to work in. Closed shoes are compulsory.

Where can this course lead?

Primary Industries Operational Skills Level 3

Agricultural Farming Systems Level 3

Unit Standard

Students will be assessed against the following unit standard:

Unit No: 24554 Level: 2 Credits: 4

Description: Operate a quad bike on flat terrain in the workplace under close supervision.

Date: Upon application **Course length:** Two days

Time: 9.00 am – 3.00 pm **Course cost:** \$75.00 plus gst, per student, per day

Minimum 6 students – Maximum 9 students

Students must be 16 years and older to attend this course.

This course is held at Future Trades Campus, Whangārei. Ngāwhā Campus, Kaikohe. Or potentially at your own site (subject to approval and additional cost)

Pest Operations

What is this course about?

This qualification is intended for individuals who have a wish to begin working in the pest operations industry, or those who have a passion to be a part of the NZ Predator Free 2050 Program. The qualification includes strands that recognise the distinct skills and knowledge required to carry out pest operations in either rural or urban environments.

What to wear?

Old clothes to work in. Closed shoes are compulsory.

Where can this course lead?

Pest Operations Level 3 - Conservations Level 4 - Environment Levels 5,6,7

Jobs include a Pest Control Contractor, Conservation Ranger or Regional Council Biosecurity Officer (to name a few).

Unit Standard

Students will be assessed against the following unit standard:

Unit No: 20794 Level: 2 Credits: 2

Description: Hand pluck possums for possum fur recovery.

Unit No: 29335 Level: 3 Credits: 10

Description: Describe rural pest animals, monitoring and control operations in New Zealand.

Unit No: 29338 Level: 3 Credits: 10

Description: Prepare and use traps to control rural pest animals.

Unit No: 29336 Level: 3 Credits: 3

Description: Describe impacts of rural pest animals on the environment, and benefits of rural pest animal control operations

Unit No: 20795 Level: 2 Credits: 2

Description: Machine pluck possums for possum fur recovery.

Date: Upon application

Course length: 2 block courses (4 + 2 days)

Time: 9.00 am – 3.00 pm

Course cost: \$75.00 plus gst, per student, per day

Minimum 6 students – Maximum 9 students

Students must be 16 years and older to attend this course.

This course is held at school premises (or at Future Trades Campus).

School will need access to a block to trap.

Fencing

What is this course about?

This course provides your students with the practical skills to identify and maintain fencing tools, materials and components of fencing and an overview of fencing fundamentals.

What to wear?

Old clothes to work in. Closed shoes are compulsory.

Where can this course lead?

New Zealand Certificate in Fencing Level 3 and Level 4

Unit Standard

Students will be assessed against the following unit standards:

Unit No:	572	Level:	3	Credits:	5
----------	-----	--------	---	----------	---

Description: Describe electric fencing components and systems

Unit No:	24832	Level:	2	Credits:	5
----------	-------	--------	---	----------	---

Description: Open and draw out a coil of wire, tie knots, join wire, and prepare wire for transport and storage

Unit No:	24833	Level:	2	Credits:	3
----------	-------	--------	---	----------	---

Description: Identify and maintain fencing tools and equipment, and identify fencing construction materials and wire types

Unit No:	24837	Level:	3	Credits:	3
----------	-------	--------	---	----------	---

Description: Describe non-electric fence types and components

Date: Upon application

Course length: Four days

Time: 9.00 am – 3.00 pm

Course cost: \$75.00 plus gst, per student, per day

Minimum 9 students – Maximum 12 students

This course is held at Ngāwhā Campus, Kaikohe and at Future Trades Campus, Whangārei.

Light Utility Vehicle (LUV) Stage 1

What is this course about?

A two-day course covering all aspects of the safe operation of a Light Utility Vehicle based on best practice guidelines, basic maintenance, start /daily checks (based on operator's manuals and practical driving skills).

What to wear?

Old clothes to work in. Closed shoes are compulsory.

Where can this course lead?

New Zealand Certificate in Agriculture Level 3, and Primary Industries Operating Skills L3.

Unit Standard

Students will be assessed against the following unit standard:

Unit No: 24553 Level: 2 Credits: 4

Description: Operate a light utility vehicle (LUV) on flat terrain in the workplace under close supervision.

Unit No: 24556 Level: 2 Credits: 3

Description: Demonstrate knowledge of the safe operation of light utility vehicle (LUV)

Date: Upon application

Course length: Two days

Time: 9.00 am – 3.00 pm

Course cost: \$75.00 plus gst, per student, per day

Minimum 6 students – Maximum 9 students

Students must be 16 years and older to attend this course.

This course is held at Future Trades Campus, Dyer St, Whangārei.

Light Utility Vehicle (LUV) Stage 2

What is this course about?

The course is targeted specifically for operators of LUVs used in the workplace and teaches students to ride effectively and safely over varied terrain. The student will be able to demonstrate the appropriate responsibilities of a driver with strong emphasis on accident prevention.

What to wear?

Old clothes to work in. Closed shoes are compulsory.

Where can this course lead?

New Zealand Certificate in Agriculture Level 3, and Primary Industries Operating Skills L3.

Unit Standard

Students will be assessed against the following unit standard:

Unit No:	24558	Level:	3	Credits:	4
----------	-------	--------	---	----------	---

Description: Operate a light utility vehicle (LUV) on rolling terrain under limited supervision.

Unit No:	24562	Level:	3	Credits:	3
----------	-------	--------	---	----------	---

Description: Operate a light utility vehicle (LUV) with mounted equipment or a load under limited supervision

Unit No:	24560	Level:	3	Credits:	3
----------	-------	--------	---	----------	---

Description: Drive a light utility vehicle (LUV) with trailed equipment under limited supervision

Date: Upon application

Course length: Three days

Time: 9.00 am – 3.00 pm

Course cost: \$75.00 plus gst, per student, per day

Minimum 6 students – Maximum 9 students

Students must be 16 years and older to attend this course.

This course is held at Future Trades Campus, Dyer St, Whangārei.

Prerequisites:

Candidates must have evidence of a minimum of 10 hours riding LUV bikes, in a workplace situation, over at least a three-week period, covering a range of tasks. And have completed Unit Standard: 24553

Service Industries Sector

In this sector good communication and presentation skills are important. You'll need to speak and listen well to others and relate to people from all walks of life. If you can work out how to handle tricky situations diplomatically, you'll go a long way. Knowledge of New Zealand and local culture and heritage is a real asset. And because employers and customers are keen on people who have the X-factor, a willingness to learn and being passionate is also important.

With skills from this sector you can work and travel the world. You can mix with and meet plenty of interesting people and be doing work that has lots of variety. There's not much sitting around – in these jobs you're the brand, dealing directly with people. In this sector it's easy to work part time – great if you want to use it to support further study. Skills are transferable – with your experience, you can walk in with your CV one day and have a job the next. It can be truly inspirational – from travel to tourism, hairdressing to hospitality, physical fitness to finance services.

Barista - Level 2 or Level 3

What is this course about?

This course is for those students wishing to enter the hospitality industry and who are interested in working in the area of producing coffees.

What to wear?

School uniform/School clothes, Long trousers, Closed shoes.

Where can this course lead?

This course provides excellent background knowledge for your first steps towards a career in the hospitality industry, and for the qualification:

New Zealand Certificate in Food and Beverage Level 3.

Level 2 Unit Standards

Students will be assessed against the following unit standards:

Unit No: 17285 Level: 2 Credits: 4

Description: Demonstrate knowledge of commercial espresso coffee equipment and prepare espresso beverages under supervision.

Unit No: 17286 Level: 2 Credits: 2

Description: Prepare and present pressed coffee for service.

Unit No: 17287 Level: 2 Credits: 2

Description: Prepare and present filtered coffee for service.

Level 3 Unit Standards

Students will be assessed against the following unit standards:

Unit No: 17288 Level: 3 Credits: 5

Description: Prepare and present espresso beverages for service.

Unit No: 17284 Level: 3 Credits: 3

Description: Demonstrate knowledge of coffee origin and production.

Barista Dates

Dates: T1 17, 18, 24, 25 February

3, 4, 10, 11 March

T2 28, 29 April, 5, 6 May

26, 27 May, 2, 3 June

T3 4, 5, 11, 12 August

18, 19, 25, 26 August

T4 13, 14, 20, 21 October

Further Barista courses are available by request on some Thursdays and Fridays. Some block courses may be available during term breaks. Please enquire.

Course length: Four days

Time: 9.00 am – 3.00 pm

Course cost: \$75.00 plus gst, per student, per day

Minimum 10 students - Maximum 12 students.

Introduction to the Beauty Industry

What is this course about?

If a profession in the Beauty industry interests you – this is the course for you! Learn the basics of service, operations and trends within the Beauty industry. This course is a mix of both practical and theory and is delivered on site at our purpose built Hair and Beauty Salon.

What to wear?

School uniform/school clothes, long trousers, closed shoes.

Where can this course lead?

This course provides a great platform to move on to Beauty Therapy at Level 2 or 4. You can build on the skills you learn here, to become a qualified Beauty Therapist.

Unit Standard

Students will be assessed against the following unit standard:

Unit No: 27638 Level: 2 Credits: 3

Description: Provide client service and care and assist the operator to prepare for service in a beauty salon or clinic.

Unit No: 29590 Level: 3 Credits: 4

Description: Select, maintain and demonstrate safe handling of beauty therapy equipment and tools.

Unit No: 27639 Level: 2 Credits: 3

Description: Describe key concepts and maintain personal presentation for a beauty salon or clinic.

Date: Upon application

Course length: Three days (Fridays)

Time: 9.00 am – 3.00 pm.

Course cost: \$75.00 plus gst,
per student, per day

Minimum of 7 and maximum of 16 students.

This course is held in Raumanga Campus, Whangārei.
Open to Y12 and Y13 students only.

Social and Community Services Sector

A person wearing sunglasses and a dark jacket is sitting in the driver's seat of a vehicle, possibly a bus or truck. The image is overlaid with a blue tint. The person is looking forward, and the background shows the interior of the vehicle and some blurred outdoor elements.

This sector is all about caring for people and keeping them safe. The range of jobs is huge: from monitoring and protecting people and property (like in corrections, defence, or fire fighting) to caring for people in need (as in healthcare, community and social work, medicine or therapy). You may be working for the Government or the private sector; you may be outdoors or in, or moving around from place to place. Your working hours vary – people need care 24/7. So depending on your role you might work in shifts or be on call.

This is a large and growing sector with jobs and services that are essential for community well being and safety. It's a high-employment, high-growth sector – and demand for the kind of frontline jobs in these industries is expected to continue in future years. New Zealand's ageing population will need to be housed, managed and cared for. There's a constant demand for more police, corrections, and security officers; and the need for immigration, customs and quarantine officers is also increasing.

Learner Licence Prep

What is this course about?

Students will gain a deeper understanding of the NZ driver licensing system and will also learn information and skills necessary to pass the Learner Licence Theory Test.

What to wear? Comfortable clothes/School Uniform.

Where can this course lead?

After gaining their learner licence and getting driving lessons with parents or a professional driving instructor for a minimum period of four months, there will be a follow-up by the tutor to set the student on the next progression stage, Restricted Licence and Street Talk (Defensive Driving Course).

Unit Standards

Students will be assessed against the following unit standards:

Unit No: 3462 Level: 2 Credits: 3

Description: Demonstrate knowledge of traffic law for the purpose of safe driving.

Unit No: 17676 Level: 2 Credits: 3

Description: Carry out a pre-start vehicle check on a vehicle or machine, and start and shutdown the vehicle or machine.

Date: Upon application **Course length:** Two days

Time: 9.00 am – 3:00 pm **Course cost:** \$65.00 plus gst,
per student, per day

Please note that Unit No: 3462 is a closed book assessment. Students must prepare for this assessment by:

Learning The official New Zealand road code, available online at www.nzta.govt.nz/resources/roadcode/ or in print from most booksellers.

Completing the Road code modules of Go places now, available online at <http://goplacesnow.co.nz/>. This resource is produced by Tertiary Education Commission Te Amorangi Mātauranga Matua.

Students must be 16 years and older to attend this course.

Venue could be at the school or NorthTec. Minimum 10 students – Maximum 15 students.

Trades Academy

Academy programmes provide opportunities for students to engage with learning in both the secondary and tertiary learning environments throughout a year-long programme. This builds on existing knowledge, exposes students to the tertiary learning environment and provides credits towards NCEA qualifications as well as a nationally transferable qualification.

Places on Academy programmes are limited and students are required to complete an expression of interest form and meet the tutor before being accepted onto the programme.

Mechanical Engineering Academy

This program will provide students with the necessary skills and knowledge to pursue a career in:

- Welding
- Fabrication
- Mechanical Engineering

Student Profile:

- Y12 and Y13
- Career pathway in Mechanical Engineering.

Programme:

- 52 Level 2 credits (approx)
- February start, end of October finish (29 weeks)
- Two days a week
- Students will be provided with all appropriate course materials

Student Profile:

- Students who competently complete this course may be eligible to gain the Vocational Pathways Award for Manufacturing and Technology
- An 80% attendance requirement will be essential to ensure students have the best chance of completing the programme.

Interviews will start this Term 3 and 4 with the programme commencing February 2026.

To learn more about trades academy opportunities, see your school's Careers Advisor or Trades Academy Coordinator.

Students must be enrolled in a secondary school to qualify for the programme.

If you have any questions please contact Simon Phelps: sphelps@northtec.ac.nz

Hair and Beauty Academy

Level 2/3 Whangārei

This course is for students who are wishing to pursue a career in Hairdressing and Beauty Therapy and to have a qualification which would allow them to pathway to NZC in Hairdressing L3 or NZC in Beauty Therapy L4. Graduates will have gained skills which would then allow them to further their study or to be employed in the Hair and Beauty industries.

Student Profile:

- Year 11-12 students
- Interested in following the Hairdressing and/or Beauty Therapy pathway.

Programme:

- 54 Level 2/Level 3 Credits (approx.)
- Early February start, mid-September finish (30 days)
- One day a week (every Friday)

Qualifications:

- This course will allow the student to pathway to NZC in Hairdressing Level 3 or NZC in Beauty Therapy L4.
- An 80% attendance requirement will be essential to ensure students have the best chance of completing the programme.

To learn more about trades academy opportunities, see your school's Careers Advisor or Trades Academy Coordinator. Students must be enrolled in a secondary school to qualify for the programme.

If you have any questions please contact Ebony Somers: esomers@northtec.ac.nz

Health Academy

Level 2 Whangārei

This pathway will link students at secondary school with careers in the health industry and pathways through tertiary to those health career opportunities.

Student Profile:

- Year 12
- Engaged with other Science and English subjects at school to ensure transition to Level 3 UE approved subjects related to a health pathway (desirable but not essential).
- Interested in pursuing a career in health as a carer, paramedic, doctor, midwife etc.

Programme:

- 26 credits (approx.) – where a total of 20 Level 2 Social and Community Services sector related credits would be achieved contributing to NCEA and a Vocational Pathway Award.
- Practical components of learning will include nursing simulation as well as field trips (subject to Covid restriction policies) to industry.
- Terms 1-3 (early March start, early September finish)
- One day a week (Thursdays) from 9.00 am to 3.00 pm
- An 80% attendance requirement will be essential to ensure students have the best chance of completing the programme.

To learn more about trades academy opportunities, see your school's Careers Advisor or Trades Academy Coordinator.

Students must be enrolled in a secondary school to qualify for the programme.

If you have any questions please contact Lucie Quantrill:

lquantrill@northtec.ac.nz

Construction Academy

Level 2 Whangārei

This programme aims to provide students with general construction and maintenance knowledge. It provides training across a wide range of construction and maintenance areas by giving students practical experience on small building projects. This programme is also an ideal starting point for further study in the construction sector.

Student Profile:

- Year 12
- Interested in following the construction and infrastructure pathway

Programme:

- 40 Level 2 credits (approx)
- February start, late October finish
- One Day a week (Thursday) with a 2 to 3 day block course in term 1
- Students will be provided with all appropriate course materials

Qualifications:

Students who competently complete this course will gain Level 2 BCATS Qualification

An 80% attendance requirement will be essential to ensure students have the best chance of obtaining the qualification.

To learn more about trades academy opportunities, see your school's Careers Advisor or Trades Academy Coordinator.

Students must be enrolled in a secondary school to qualify for the programme.

If you have any questions please contact Roger Rhodes: rrhodes@northtec.ac.nz

Automotive Academy

Level 2/3 Whangārei

A combination of Level 2 and Level 3 unit standards that will allow students to progress into one of the following automotive roles:

- Vehicle repair servicing
- Motor industry apprenticeship
- Further specialist apprenticeship

Student Profile:

- Y12 and Y13
- Career pathway in Automotive/Engineering.

Programme:

- 60 Level 2/Level 3 NCEA credits

February start, end of October finish

Two days a week

Students will be provided with all appropriate course materials.

Qualifications:

Students who competently complete this course may be eligible to gain the Vocational Pathways Award for Manufacturing and Technology

An 80% attendance requirement will be essential to ensure students have the best chance of completing the programme.

To learn more about trades academy opportunities, see your school's Careers Advisor or Trades Academy Coordinator.

Students must be enrolled in a secondary school to qualify for the programme.

If you have any questions please contact Gareth Edwards: gedwards@northtec.ac.nz

Cookery Academy

Level 3 Whangārei

This programme will give students the basic skills needed to actively participate in commercial kitchen operation. The expectation is that students, after completing the extended programme, would be eligible and given preferential entry to apply for the Level 4 Cookery Programmes. This is a programme that requires commitment and dedication from students to attend all classes. An attendance of at least 80% will be essential to ensure completion of the programme.

Student Profile:

- Year 12 and 13
- Interested in following the hospitality pathway with the possibility of becoming a chef

Programme:

- 45 Level 3 credits (approx.)
- Early February start, late September finish
- One day a week (every Thursday) and one 4-day block course during the school holidays.

Qualifications:

- Students wishing to progress to L3 Cookery and gain the equivalency of NZ Certificate in Cookery L3 will be required to complete a further block course of 15 credits, in order to achieve this.

To learn more about trades academy opportunities, see your school's Careers Advisor or Trades Academy Coordinator.

Students must be enrolled in a secondary school to qualify for the programme.

If you have any questions please contact Brooke Irving: birving@northtec.ac.nz

Hospitality Service Academy (F&B)

Level 3 Whangārei

This programme is for those wishing to pursue a career in Hospitality and to have a qualification which would allow them to pathway to NZC in Food and Beverage L4. Graduates will have gained skills which would then allow them to further study or to be employed in the service industry, particularly in Hospitality.

Student Profile:

- Y13 (Year 12 at the discretion of the tutor).
- Interested in following the hospitality pathway.

Programme:

- 55 Level 2 / Level 3 credits (approx.)
- Early February start
- One day a week (every Monday) and a 3-day block course during term 1.
- Students will be provided with all appropriate course materials.
- An 80% attendance requirement will be essential to ensure students have the best chance of completing the programme.

To learn more about trades academy opportunities, see your school's Careers Advisor or Trades Academy Coordinator.

Students must be enrolled in a secondary school to qualify for the programme.

If you have any questions please contact Brooke Irving: birving@northtec.ac.nz

Experiences

We welcome the opportunity to work with your school to support your students to gain experience of tertiary study and to work out what their next steps might be once they leave school. In addition to our STAR, Trades Academies and Tasters, feel free to talk to us about the following activities and more:

- Student for a Day
- Experience Days
- Teacher Taster Days
- Campus Tours
- Transitioning students to further study
- In-school presentations with tutors, students and graduates
- Parent/Whānau Info Sessions
- Careers evenings and expos

We've listed some of our regular activities and events on the following pages, but if you'd like something bespoke for your students, please get in touch to discuss how we can make it happen.

Future Trades/Future (Pathways Day)

Do you want to gain practical hands on experience?

Come and spend the day with us at our Whangārei based campuses. We'll provide you with hands-on experience, the chance to learn more about what programmes are offered at NorthTec and what it would be like studying at NorthTec. This day is designed for secondary school students (Year 11-13 only).

Students will have the opportunity to participate in two x 2 hour workshops that give them practical, hands on and stimulating introductions to the respective courses.

Numbers are limited to 8 per school and we would like to encourage you to send only those students who are already showing a keen interest in the featured programmes.

Student For A Day

Hospitality

Experience world-class training facilities and learn more about NorthTec's Hospitality programmes.

What to wear?

School uniform/clothing, long trousers, closed shoes.

Date: To be announced

Time: 9.00am – 3.00pm

Cost: FREE

Venue: Hospitality Building, Raumanga Valley Rd, Whangārei.

These days are designed for Year 12 and 13 secondary school students who wish to pursue a career in hospitality. Spaces are limited. If you are interested, please email your full name, secondary school and contact number to schoolsconnect@northtec.ac.nz

Student For A Day

Sport & Recreation

Be part of our Sport and Recreation programme for a day. Learn what it takes to work in the sporting industry and where your career could take you!

What to wear?

P.E. gear/Short/Joggers/Sneakers

Time: 9.00am – 2.00pm

Cost: FREE

Venue: Kensington Fitness, Kensington Whangārei

These days are designed for Year 12 and 13 secondary school students who wish to pursue a career in Sport & Recreation.

Spaces are limited. If you are interested, please email your full name, secondary school and contact number to schoolsconnect@northtec.ac.nz

Campus Visit

Come and check out NorthTec with an interactive information session and campus tour. Find out what programmes are available and what it would be like studying at NorthTec.

Fill up on information and wash it down with morning tea in a relaxed carefree atmosphere.

Regional campus visits can also be arranged.
Please email schoolsconnect@northtec.ac.nz.

Taste Of Tertiary

Offering you the ideal opportunity to spend the day experiencing tertiary study in the friendly atmosphere of NorthTec's campuses.

An interactive day touring and experiencing at the Raumanga, Kensington and Future Trades campuses.

- Tour the campuses
- Take part in activities
- Listen to the tutors
- Talk to the students
- It's YOUR choice.

After your days' experience you will be ready to make the right decision about your future, based on the first hand information you would have received from our Taste of Tertiary day.

Connecting With NorthTec

NorthTec is committed to providing better lives through education and to growing the economic, environmental, cultural and social prosperity of Te Tai Tokerau Northland. Secondary to tertiary transition is a key part of this, and so supporting our high schools, building relationships and working collaboratively is a priority focus for us.
