

# Why workplaces trust Kineo Courses

Online training that is engaging,  
rewarding and delivers results

[kineocourses.com.au/contextualisation](https://kineocourses.com.au/contextualisation)

# We understand you

Kineo Courses listens. We know that your workplace:

---

Has specific learning needs requiring specific learning solutions

---

Spend countless hours reporting and doing administration, which takes managers away from leading their teams

---

Need the support of a friendly and proficient customer service team

---

That's why Kineo Courses has created tailored course suites to serve the unique needs of workplaces across a diverse range of industries. Our courses are robust, easy to use, and efficient with automated reporting and administration functionality.

They are also affordable, and overseen by a dedicated customer support team who are equally committed to your learners' success and satisfaction.

## We are leaders in elearning

For more than 20 years, Kineo has delivered industry-leading courses to improve learning experiences in workplaces around Australia. During this time, we have created a range of relevant and highly engaging courses to equip businesses with premium knowledge and skills to tackle their training obligations, head-on.

We have become experts in people and digital learning, delivering bespoke courses that are easy to navigate to meet diverse learners' needs and to save workplaces valuable time and money so they can thrive at what they do best.

Our aim is to upskill staff online so you can have a measurable impact on the ground. This is how Kineo Courses differ from other learning providers — we're about kicking goals, not just ticking boxes.

4.5 / 5

More than 129,000 learners rated Kineo Courses 4.5 out of 5 for satisfaction in 2022

# Our offerings

---

## Bundled suites:

Our fit-for-purpose courses are contextualised to your learners and bundled into suites in Compliance, Leadership and Management to serve your diverse learners' needs.

---

## Stand-alone courses:

We also offer stand-alone courses in Work, Health, and Safety Fundamentals, Bullying and Harassment for Employees, Equal Employment Opportunity, Risk Management for Employees, and others. Learner feedback is 5 stars.

**“ Very easy to understand and informative.  
Kept me engaged. ”**

**Macedon Ranges Shire Council**

Bullying and Harassment for Employees Course

## We are experts in people

If a business has a strong identity built on diversity, it will quickly become an employer of choice, in turn attracting and retaining people from all parts of society and strengthening your talent pool.

Our courses are adapted to meet this diversity and by doing so, leverage a sense of pride and belonging among your staff.

**“ Our Kineo account manager is excellent with a great personality and understands our clients’ needs. They support me with client requirements if adjustments need to be made to meet their individual learning needs. The service is affordable, easy to use, the library is of a good quality and the implementation program is great. ”**

rating in 2022

### Contextualised learning

One size no longer fits all in our consumer-driven world, and nor should it. Our courses are adapted so the look, feel and content match your learning needs and learners' roles. Learning that is tailored this way, means your learners can easily draw mental connections and transfer their knowledge back to their job — where it really matters.

### Credible content

Our courses are co-created with subject matter experts (SMEs). These trusted advisors are highly regarded in their area of specialism and work with us to create the learning content, as well as to identify future needs that assists with case building for our future learning roadmap.

### Accessible and inclusive

Your people learn differently and have a wide range of learning needs. Kineo's courses work with off-the-shelf assistive/adaptive technologies, in conjunction with our own embedded design, which aligns with **WCAG 2.1 AA** to ensure our learning is accessible for everyone

---

# We are experts in digital learning

Compliance training takes staff away from the front line, which costs money. Likewise, learners don't want to waste time relearning information they already know.

So how can workplaces be more efficient with their time, yet demonstrate compliance knowledge? Kineo Courses works tirelessly with our commercial and content partners to offer organisations both specialist and wider skills-based learning. We collaborate with SMEs and industry leaders to ensure our learning material is current, relevant, and required by industry.

**“ Kineo offers a good-level price point for my clients, as well as a robust system. The reporting is great, which means less admin and we receive prompts when training is due to expire. This takes away a lot of administrative burden for the organisation and there have been no frustrations. ”**

**Patricia Paolini**

Business Development Manager - Training. Peak Services.

### Unique learning design

Delivered in a meaningful way, our simple and considered design translates knowledge so it can be applied to a workplace straight away.

---

### Learning Management System (LMS)

Kineo Courses works across all learning and performance systems. Businesses can use our learning and content delivery platform as part of their Kineo Courses subscription or via their own LMS through our cloud solution. All options are equipped with deep analytical reporting functionality.

---

### Pre-assessment tool

Our signature no-nonsense tool Adaptics, fast tracks learning by recognising and rewarding prior knowledge so staff only need to complete learning gaps.

---

## ISO Certified

Kineo Courses have  
been ISO Certified  
for over 13 years

**Our courses are loved by  
customers and endorsed  
by our peers.**
