# Action on equality, diversity and inclusion

Organisations taking part in The RACE Report are asked to detail the action taken internally to support equality, diversity and inclusion. The list of actions covers a breadth of areas and incorporates commonly recommended actions to support progression of equality, diversity and inclusion, but is not intended to be an exhaustive list. Neither is one action intended to be prioritised over another, and actions may not be applicable to all organisations.

# Approach to equality, diversity and inclusion

“

Our federation strategy sets out the principles which will underpin all of our work. We work where there is most need and we can have most impact – prioritising our resources and building partnerships so that we can bring about lasting change. We listen to local voices and empower people – ensuring our work is shaped by those it is designed to benefit and strengthens community assets and infrastructure. We embed equity and inclusion in everything we do – addressing injustice and seeking out a diversity of viewpoints, both in the work we do and the people we employ. We learn from local practice to promote wider change – sharing the lessons from our work so that we can influence policy and contribute to system change. We are collaborative and innovative – forging strong partnerships and working with others to develop new ways of working and achieve greater impact. We are environmental exemplars – championing practical action to combat the climate and nature emergencies and measuring and reducing our own environmental impact. Our work is designed to address the needs of all sections of the community, and we provide equal access to our services regardless of people's backgrounds, circumstances or characteristics. We have national and local working groups promoting equity, diversity and inclusion across our federation and regularly gather feedback from colleagues and communities about our culture and practices to ensure they are as inclusive as possible.
