Additional information regarding the data contained in these columns can be found in the "Tooltips" column of the Data Grid Columns section of the Administration tab, or by hovering over the column title within the report.

Global Changes That Affect All Applications

Case: 61491   Report Scheduler blocks other threads under certain conditions

When a private Pinned Report was scheduled for delivery and that user lost access to the report (or completely disappeared from the system) then the schedule would be marked as in progress but the job wouldn't actually start since it had nothing to do. This means it would never succeed or fail until it timed out, preventing other scheduled events from triggering during that time.

Case: 61736   Convert CR/LF characters into <br /> when sending Report Scheduler emails

When the server sends emails in HTML format, if the user enters line breaks (carriage return/line feed characters) they will now be replaced with HTML <br /> tags so that the recipient will see the line breaks as new lines instead of just single spaces.

SYS. REQ.   Minimum Server Requirements

DATABASE: Oracle 19c   WEBSERVER: Windows Server 2019, IIS 10, .NET Framework 4.7.2

Client specific cases may or may not appear in this list, depending on their impact on the baseline applications and / or site specific settings.
