FASTHR

Case: 62810   Add fields EMPL_JBLN_CODE and EMPL_JBLN_DESC to tables EMPLOYEEHISTORY PAYROLLDEDNDETAIL

Added fields EMPL_JBLN_CODE and EMPL_JBLN_DESC to warehouse tables:

EMPLOYEEHISTORY
PAYROLLDEDNDETAIL

Case: 63531   Add Position Class Code Desc to Position reports

Added a "Position Class Desc"[ription] column to the following reports:

- All Current Positions
- All Vacant Positions
- Position Descriptions
- Position History
- Position Incumbent History

Client specific cases may or may not appear in this list, depending on their impact on the baseline applications and / or site specific settings.

Release Notes: Version 5.2.01

Global Changes That Affect All Applications

Case: 62056   Pinned Report Admin Page: Add hyperlink to pinned report from page

Added a new "Menu Path" column to the Pinned Reports administration screen. The column is also hyperlinked to drill down to the specified pinned report (if the user has access to that pinned report).

Case: 62943   Admin Tab: Control width option to data entry section

On the page level Administration tab under the Data Grid Entry Columns section, renamed the existing "Width" column to be "Column Width" and added a new column "Control Width" (allowing, for example, the width of an associated dropdown list or search results to differ from the width of the underlying column).

Case: 63434   Percentage columns on data entry grids

When clicking into a data entry cell that is a numeric textbox type with format set to percent, the cell had "50%" before click and "50 %" after click, which caused the cell to become yellow when nothing actually changed. We have fixed this so the space between the number and the symbol does not get added when clicking into the cell anymore.

SYS. REQ.   Minimum Server Requirements

DATABASE: Oracle 19c   WEBSERVER: Windows Server 2019, IIS 10, .NET Framework 4.7.2

Client specific cases may or may not appear in this list, depending on their impact on the baseline applications and / or site specific settings.
