
FASTAR

Case: 63972 Prevent copying of credit memos with Credit Against set

Updated the Invoice Copy screen to prevent copying of credit memos that have a specific Credit Against field set.

FASTBUDGET

Case: 61880 Position Budget Transfers: Ability to AutoLock records generated by position transfers

A new configuration setting and a new security role have been added to support the locking of position budget transfer transaction records prior to being approved and finalized as a transfer.

Configuration Setting 1600 - Allow editing of Budget Transfer records created from Position changes. Y/N. An 'N' in this setting allows editing of position budget transfer records. A 'Y' in this setting will prevent editing of position budget transfer records. Please note that even if the transaction rows are locked, it does not prevent the insert of new records on the page.

Security Role - A new security role (BUDGET_UPDATEPOSITION) has been added to allow people in that role to edit position budget transfer records when the configuration setting 1600 = Y.

Case: 63577 Compare Bud to Dev Report: Add FOAPAL Descriptions

Added FOAPAL Title columns to Compare Bud to Dev report.

Case: 63578 Compare Dev Series report: Add FOAPAL Descriptions

Added FOAPAL Title columns to Compare Dev Series report.

Case: 64134 Budget Development: Add columns

An optional data enterable Suffix column has been added to the Budget Development Entry page.

A non-data enterable employee class description has also been added in hidden mode.

Note: This case only adds the suffix column to the data entry page and does not add it to the import process or copy functionality. Those will be handled in another case.

Case: 64228 Benefit Maintenance: Required columns not marked mandatory

The following columns are required but were not marked as mandatory on the data entry page, leading to confusion when entering data:

Description
Burden %
Effective Year

These columns have been changed to mandatory so that they must be populated in order to save records.

Case: 64297 Position Records - Unable to delete records

If the Posted to ERP indicator = 'N' then distribution records should always be allowed to be deleted, even if child records exist (the associated child records will be deleted first and then selected record after).

FASTFINAID

Case: 63714 Add Student Mailing Addresses to all Financial Aid reports that include student data

Student Mailing Address columns (address, city, state, zip, etc.) have been added to the following reports:

- Info by Aid Year \ FAFSA Changes
- Info by Aid Year \ Student Aid Requirements
- Info by Aid Year \ Student Aid Year Summary
- Info by Aid Year \ Student Comments
- Info by Aid Year \ Student Financial Aid Awards by Aid Year
- Info by Aid Year \ Student ISIR Comment Codes
- Info by Term/Period \ Student Financial Aid Awards by Period

FASTFINANCE

Case: 62203 Add FOAPAL Descriptions to the Transaction Details Report

Added FOAPAL Title columns to the Transaction Detail reports. If your organization already custom added these columns in the past, there may now be duplicates, in which case these can be disabled via the page level Administration tab.

Case: 63864 Add address columns to Vendor PO Summary report

Added Vendor City, Vendor Province, Vendor Postal Code and Vendor Country columns to the Vendor PO Summary report.

Case: 64122 Improve data refresh performance of Transaction Detail steps

Applied some changes to the data refresh that should in most cases improve the performance of the Transaction Detail steps.

FASTHR

Case: 64124 Create validation form to maintain descriptions for job status and employee status indicators

Created a new validation form under Administration -> Status Codes to hold the descriptions for both Employee Status and Job Status codes. This will allow a description to be set/maintained for any of these codes.

Case: 64131 Add Status Code Description to All Jobs and Current Jobs reports

Added Job Status Desc column to the All Jobs, Primary Jobs and Current Jobs reports.

Case: 64409 Add Employee Status Description to Employee Reports

We have added the Employee Status Description to each of the baseline reports that come delivered under the Employee menu in FAST HR. The descriptions associated to each employee status code can be maintained using the new Status Codes validation form located under the Administration Menu.

Case: 64497 Add Job Status Description

Added the Job Status Description column to the following reports:

- All Job History
- Job Pay History
- Current Jobs With Labour
- Job Labor Code Audit
- Job Labour Code
- Job Earning Details

Case: 64583 Job Status on Job Earning report need exclude future dated events

Updated how the Job Status column is determined on the Job Earnings report to ensure future dated records are excluded.

FASTRESEARCH

Case: 64556 Adding Researcher by ID may return multiple duplicate records

Fixed a bug on the Researchers screen when searching by Spriden ID and then clicking the New Researcher button, sometimes multiple results would appear.

FASTSTUDENT

Case: 59731 Course Summary & Enrollment Summary Reports: Add Academic Year information

Added new Academic Year and Academic Year Description columns to Course Summary and Enrollment Summary reports in deselected mode. You can adjust whether new columns and/or filters are added/enabled via the Administration tab of the report. Additional information regarding the data contained in these columns can be found in the "Tooltips" column of the Data Grid Columns section of the Administration tab, or by hovering over the column title within the report.

Case: 63869 Course Plan: Bug when adding Meet record when no meet records exist

Fixed a sporadic problem on the Course Plan Meet Times and Rooms screen when the Day Time Room column had a value of TBD.

Case: 63875 Student Invoice Totals: New Report

A new report has been added under Student Accounts menu named 'Student AR Invoice Totals', and the previously named 'Student Invoice Summary' has been appropriately renamed 'Student AR Invoice Term Summary'. Existing Student Invoice Summary report displays invoice totals by term, but clients needed one that showed totals for the invoice rather than by term, as some clients combine multiple terms into one invoice.

Case: 64202 Configuration Settings 420, 425, 428

The description and additional info columns for student configuration settings 420, 425, and 428 have been updated to more accurately reflect their purposes.

Case: 64369 Modified Credit Hours column on Academic History report

Academic History report should be looking at academic history tables for credit hours and campus before looking at current registration information. This has been updated.

Case: 64420 Academic History Report: Add columns

The following columns have been added to the Academic History report in deselected mode:

TERM_DESC
ACADEMIC_YEAR_CODE
ACADEMIC_YEAR_DESC
COLLEGE_CODE (course college)
COLLEGE_DESC (course college desc)
COURSE_DEPT_CODE
COURSE_DEPT_DESC

And the following column has been added in hidden mode:

BIRTH_DATE

You can adjust whether new columns and/or filters are added/enabled via the Administration tab of the report. Additional information regarding the data contained in these columns can be found in the "Tooltips" column of the Data Grid Columns section of the Administration tab, or by hovering over the column title within the report.

Case: 64469 Report Transfer Detail: added column

Added Transfer Group Primary Ind column to the Transfer Course Detail report in deselected mode. You can adjust whether new columns and/or filters are added/enabled via the Administration tab of the report. Additional information regarding the data contained in these columns can be found in the "Tooltips" column of the Data Grid Columns section of the Administration tab, or by hovering over the column title within the report.

Case: 64530 Additional fields requested to be added to Student Info/Transfer Course Detail

These columns have been added in 'Deselected' mode. You can adjust whether new columns and/or filters are added/enabled via the Administration tab of the report. Additional information regarding the data contained in these columns can be found in the "Tooltips" column of the Data Grid Columns section of the Administration tab, or by hovering over the column title within the report.

new columns: ADMIT_TERM_CODE and DECISION_CODE
