

# Kevin McGurgan

Product Designer

## Work Experience

2022 - Present

### Senior Product Designer | Jellyfish

Redesigned navigation and IA, resulting in significant increases in app exploration and usage for new Jellyfish customers. Designed two planning tools that differentiated Jellyfish in the market. Led redesign for engineering metrics suite, emphasizing flexible data exploration as opposed to a one-size-fits-all approach.

2020 - 2022

### Senior UX Designer | SimSpace

Led design for a complex quota definition tool for virtual compute resources in a cyber-security training environment. Made significant contributions to the SimSpace design system.

2019

### UX Designer | Bottomline Technologies

2018 - 2019

### UX Designer | ClearCompany

2016 - 2017

### UX Designer | Charles River Analytics

2015 - 2016

### UX Designer | Resilient Cognitive Solutions
