

Manon Mus

Manon graduated from Utrecht University in 2025, obtaining her Master's degree (with honours) in Constitutional and Administrative Law, specialising in Environmental and Planning Law. Her thesis focused on legal cost recovery instruments available to municipalities and water authorities for climate adaptation measures in the public space and water system. After her studies she worked as a paralegal at Straatman Koster advocaten, focusing on various legal areas within construction law and real estate law.

Manon joined Straatman Koster advocaten as a lawyer in August 2026.

Expertise:

Manon's practice focuses on real estate law, with particular emphasis on environmental and planning law. She advises clients and litigates on their behalf in matters relating to environmental and planning law, area and project development, land acquisition and energy law. Her clients include public authorities, developers, construction companies, investors and private individuals.

Practices areas

Environmental and planning law
