

## DUAL LAT PULL DOWN

JPRB - 201

The Proton Series Dual Lat Pull Down is crafted for effective upper back and lat development with a focus on user stability and comfort. It features a fixed handle design with no independent arm movement, ensuring consistent bilateral engagement. The machine includes an adjustable seat and back support for proper posture alignment, along with a foot roller to securely anchor the legs during heavy lifts. With a smooth pulley system and 100kg weight stack, it guarantees reliable performance and durability—ideal for any commercial gym setting.

### FEATURES

- ◆ **Dual Pulley System:** Independent movement for each side, ensuring balanced strength development.
- ◆ **Adjustable Knee Pads:** Customizable for users of all sizes for a secure fit.
- ◆ **Ergonomic Handles:** Multiple grip options to target different muscle groups.
- ◆ **Durable Construction:** Designed for long-lasting performance and stability.
- ◆ **Compact Design:** Space-Efficient, perfect for smaller gyms or home.
