

UPRIGHT BIKE UBX

The Upright Bike UBX is a compact, self-powered stationary bike that delivers efficient cardiovascular training. An ergonomic handlebar, adjustable breathable saddle, and non-slip pedals with fixing straps work together to provide a comfortable, secure riding position throughout every session. The LED console displays six real-time metrics, with heart rate captured via handheld pulse handles and controls arranged for intuitive, in-ride adjustability. Equipped with a Poly-V Belt drive system and 16 levels of resistance, it offers smooth, progressive intensity suitable for a broad range of users and fitness goals.

Accessories Holder Ergonomic Control Frame	<ul style="list-style-type: none"> Water bottle holder Position layout, Operating angle, Button shape, Function integration. It balances load-bearing capacity (usually able to support 120-150kg) and lightweight design, while the lines conform to the human body's movement trajectory to reduce swaying during exercise. It features non-slip adjustable pedals with a fixing strap (to prevent foot slippage), a large pedal area with a textured design, an angle adapted to the natural foot-stepping posture, and a smooth pivot to reduce knee pressure. It is an ergonomic saddle with a breathable soft pad on the surface. It supports two-way adjustment of front and back and height, conforms to the curve of the buttocks, and reduces pressure even during long periods of exercise. 	Specific if any	<ul style="list-style-type: none"> Adjustable foot pedal, a water bottle holder, multi-functional LED display, movable casters, wide foot pedal for greater comfort, and handheld heart rate monitor.
