

# RECUMBENT BIKE RBX

The Recumbent Bike RBX is a low-impact cycling solution engineered for comfort, accessibility, and effective cardiovascular conditioning. Its Poly-V Belt drive system offers 16 levels of resistance, while the walk-through frame design and ergonomic reclined seating position make it a reliable, user-friendly choice for rehabilitation and general wellness settings alike. A breathable, adjustable saddle with two-way positioning, non-slip pedals with fixing straps, and a smooth pivot mechanism collectively minimize joint strain and maximize session comfort.
