

TREADMILL RUN MX

The Treadmill RUN MX is built to handle high-frequency use. Powered by a 3HP continuous / 7HP peak motor, it reaches speeds of up to 20 km/h. The 15-level motorized incline system simulates a real-world terrain. A reinforced deck and spacious belt ensure lasting underfoot stability, while built-in shock absorption and a 330 mm step-up height keep every session safe and comfortable. The LED console tracks all key metrics in real time, and dual-zone controls make on-the-go adjustments effortless.
