

# How To Use Striketip

How it works

## Actions For Team Members

- Sign up to Strikepay via WhatsApp link or the Team QR code
- Fill out profile, and add an image
- You are instantly tippable. Clients tip direct to your account.

## To Withdraw

- The first time you click on 'Cash out' you'll need to connect your bank account. To add, go to the person icon top right of your screen and select "Payouts"
- To withdraw money press "Cash Out".
- Withdrawals can be made daily for free. We make payment the next business day, landing within 24hrs to your bank of choice, other banks may vary in release times (up to three days).

## Costs

- Like all card transactions there is a small fee but the customers pay that. We make it optional and 9/10 of customers opt to pay it, so you get the full tip.
- For you there are no costs, just instant tips
