

KLAR® PVC CORRUGATED PANEL

THERMOACOUSTIC MULTILAYER TECHNOLOGY

Made from 100% rigid PVC resin, KLAR® PVC corrugated panels are extremely durable, will never rust, and are highly resistant to humidity, saltpeter, bacteria, and chemical corrosion. Engineered with multilayer technology, they provide excellent insulation and noise reduction, benefiting installers and property owners alike.

Compared to other corrugated PVC panels, KLAR® panels are thicker and offer superior rigidity and stability. These impact resistant PVC corrugated panels are perfect for demanding roofing, siding, and interior applications.

FEATURES & BENEFITS

Long Lasting, Impact
& Rust Resistance

Humidity, Chemical
& Bacteria Resistant

Low Heat Transferability

100% Recyclable,
Lead & Rubber Free

Low Density, Absorbs
Noise & Vibrations

Easy to Install
& Maintain

Long Lasting
UV Protection

Non-Flammable,
Class B1 Fire Resistance

APPLICATIONS

- Calf & Hog Barns
- Dairy Buildings
- Chicken Coops
- Barndominiums
- Agro-Industrial Centers
- Warehouses
- Manufacturing Facilities
- Food Processing
- Meat Packing
- Car & Truck Washes
- Ports & Marinas
- Sheds & Garages
- Storage Units

KLAR® PVC CORRUGATED PANEL

Manufactured with thermoacoustic multilayer technology, these high-performance PVC panels provide better thermal insulation performance over metal panels, creating a more stable and comfortable indoor temperature. No thermal barrier needed! KLAR® PVC corrugated panels also have great acoustic properties, reducing noise up to 12 decibels.
