

NOTICE OF QUALIFIED VENDOR LIST SELECTIONS

Illinois International Port District's Request for Proposals for: Qualified Vendor List for Purchase of Battery Electric Vehicles and Equipment at the Illinois International Port District

Following its evaluation of proposals received in response to this RFP, the Illinois International Port District (IIPD) has selected the vendors and equipment models identified below for inclusion on its Qualified Vendor List.

Inclusion on the Qualified Vendor List confirms that the vendor and equipment model satisfied the applicable requirements of the RFP. It does not guarantee the purchase of any equipment or establish a minimum purchase quantity. Any purchase will be subject to available funding, final pricing, equipment availability, applicable grant requirements, and execution of a purchase order or contract by IIPD.

ADDITIONAL NOTES

- No responsive and qualified proposals were received for the battery-electric skid steer loader.
- Based on the information, certifications, and supporting documentation submitted by vendors through the RFP process, the Selection Committee determined that the vendors and equipment identified on this Qualified Vendor List satisfied the applicable federal compliance requirements at the time of evaluation. To remain eligible for purchase under the Illinois Clean Ports Program, each vendor and equipment model must continue to comply with all applicable federal requirements, including Build America, Buy America (BABA) requirements and any applicable waivers, and must meet all required delivery and commissioning milestones. IIPD may require updated certifications or supporting documentation before purchase and reserves the right to remove any vendor or equipment model that no longer satisfies applicable requirements.
