FAMILY STORY
Adopt-A-Family 2026

Family Number: 1-304
Sponsor Number: 1071

About your family: Just me and my three children. Jessa is big into producing art, loves rock/alternative retro music and plays the guitar. She also loves her converse chuck Taylors. Roen is a fan of Roblox, zombie movies and Barbie dolls. Caden loves rock hounding, Pokémon and Minecraft. I'm a huge fan of the Detroit Lions and we all like going out for milkshakes, though that's a rare treat.

How this program will help your family: Since I got custody of the children last year, it's been a struggle, not just financially. Anything other than the absolute necessities have been difficult to obtain. We are grateful for what we have, but providing any extras for the children that make them smile and feel special would mean the world.

Your current struggle: Our current struggle is working on the mental health of the children (one who just got out of his second weeklong mental health facility September first). The inability for me to work due to needing to be home with him is crushing financially. I'm working on becoming his full-time caregiver, to allow us to not only afford rent, but also provide the kids with the support necessary.
