SHORTER TERM LEY MIXTURES

MEGAYIELD

£51/14kg pk

Suitability
- For more intensive mixed farm units as a break in arable rotation or for short-term ley regimes
- 18 month to two year ley

Advantages
- Highly productive specialist short-term silage mixture
- Capable of up to four cuts per annum
- Ideal for high nitrogen regimes and continual cutting throughout the year
- Can provide an abundance of early bite or late season grazing as a bonus

Contains

Star/Syntilla	*Italian Dip RG*	*5kg*
Aston Crusader	*Hybrid RG*	*4kg*
Teanna	*Italian Tet RG*	*5kg*

EARLY BITE

£56.50/14kg pk

Suitability
- A two to three year intensive grazing mixture with silage option, ideal for early turnout
- Can provide an abundance of early bite and late season growth

Advantages
- A combination of quality SRUC recommended varieties with excellent early spring growth, good mid-season digestibility and excellent ground cover

Contains

Teanna	*Italian Tet RG*	*4kg*
Aston Crusader	*Hybrid RG*	*4kg*
Nifty/Agaska	*Int Dip PRG*	*2kg*
Calibra	*Int Tet RG*	*4kg*

DUAL PURPOSE

£60.50/14kg pk

Suitability
- A minimum three-year dual purpose mixture with outstanding flexibility for grazing and cutting

Advantages
- Only the best SRUC recommended varieties are included to ensure a dense and productive sward
- A well designed mixture which ensures winter hardiness, persistency and digestibility
- The inclusion of White Clover enriches protein and mineral content of forage

Contains

Aston Crusader	*Hybrid RG*	*2.5kg*
Boyne/Agaska	*Int Dip PRG*	*2.5kg*
Calibra	*Int Tet PRG*	*5.5kg*
Nifty	*Int Dip PRG*	*3kg*
White Clover	*Blend*	*0.5kg*

MEDIUM TERM LEY MIXTURES

MAXI SILAGE

£62/14kg pk

Suitability
- A 4-5 year medium term, high quality silage mixture with a flexible range of dates for optimum 'D' value at first cut

Advantages
- Contains four top recommended varieties which have superb early spring growth and mid-season digestibility (ideal for aftermath grazing too)
- A combination of these varieties ensures very high yields with good 'D' values in the ensiled material

Contains

Nashota	*Late Tet PRG*	*4kg*
Gala/Aston Crusader	*Hybrid RG*	*4kg*
Agaska	*Int Dip PRG*	*4kg*
Nifty	*Int Dip PRG*	*2kg*

SUPERGRAZE

£64.50/14kg pk

Suitability

- A specialist grazing mixture for integration into a two-sward system on the intensive dairy holding for a medium-term period (4/5 years duration)
- High Tetraploid ryegrass content makes it ideal for drougty, sandy, light soils plus enhances gross sugar content

Advantages

- Top livestock performance is attained when Supergraze is used in conjunction with higher than average stocking rates and utilised by high performing livestock
- Excellent varietal persistence makes certain of outstanding durability and winter hardiness
- Excellent regrowth potential plus the bonus of clover contribution to sward N and sward mineral content

Contains

Agaska/Nifty	*Int Dip PRG*	*2.5kg*
Calibra/Nolwen	*Int Tet PRG*	*4kg*
Hurricane	*Late Tet PRG*	*3kg*
Nashota/Bijou	*Late Tet PRG*	*3.5kg*
Dublin	*White Clover*	*0.5kg*
Liflex	*White Clover*	*0.4kg*
Rivendel	*White Clover*	*0.1kg*

GREENFIELD

£65/14kg pk

Suitability

- A medium-term dual-purpose mixture specifically designed for at least 4-5 years duration

Advantages

- Providing high digestibility grazing in mid-season plus the bonus of heavy silage cuts
- The inclusion of white clover adds nutritional value to silage while Timothy compliments ley persistency on colder, heavier ground

Contains

Aston Crusader/Gala	*Int Tet PRG*	*2kg*
Calibra	*Int Tet PRG*	*4.5kg*
Agaska	*Int Dip PRG*	*4kg*
Bijou/Nashota	*Late Tet PRG*	*2kg*
Rasant/Lischka	*Timothy*	*0.5kg*
White Clover	*Blend*	*1kg*

LONGER TERM LEY MIXTURES

SUPERCUT

£59.50/14kg pk

Suitability

- A long-term cutting mixture ideal for continuous silage production for more than 5 to 6 years

Advantages

- Guaranteed a high level of silage from two to three cuts per year plus the bonus of good grazing either early or late season
- A quality combination of intermediate and late PRGs with very high cut yield capability and good ground cover

Contains

Nolwen/Calibra	*Int Tet PRG*	*3kg*
Nifty	*Int Dip PRG*	*3kg*
Bijou/Nashota	*Late Tet PRG*	*4.5kg*
Oakpark	*Late Tet PRG*	*3.5kg*

Don't forget to ask about Greening & Cover Crop Seeds

LONGER TERM LEY MIXTURES (continued)

EVERGRAZE — £67.50/14kg pk

Suitability
- A very long-term, specially designed, grazing mix producing leafy and lush herbage growth of high quality
- Suitable for all types of livestock and includes top quality clover varieties

Advantages
- An excellent regrowth capacity and persistency over a long duration of time and creates a dense base to the sward

Contains

Nashota	*Late Tet PRG*	*5kg*
Oakpark	*Late Dip PRG*	*3.75kg*
Toddington	*Late Dip PRG*	*4kg*
Rasant/Lischka	*Timothy*	*0.5kg*
Liflex	*White Clover*	*0.25kg*
Dublin	*White Clover*	*0.5kg*

BMR LONG-TERM DUAL — £63.50/14kg pk

Suitability
- A permanent dual-purpose ley ideal for hardier locations, upland and hill reclamation seeding
- Designed for farmers in tough situations where good growth is vital and longevity crucial

Advantages
- Produces a fine leafed sward with outstanding winter hardiness and persistence on colder, more exposed sites

Contains

Nifty/Agaska	*Int Dip PRG*	*3.5kg*
Calibra/Nolwen	*Int Tet PRG*	*3.5kg*
Bijou/Nashota	*Late Tet PRG*	*3kg*
Oakpark	*Late Dip PRG*	*3kg*
Rasant/Lischka	*Timothy*	*0.25kg*
White Clover	*Blend*	*0.75kg*

OTHER MIXTURES

SWARD REPAIRER — £41/10kg pk

Suitability
- Ideal economically priced mixture to produce fast results from spring to summer sowing

Advantages
- Full of aggressive fast growing herbage species designed to produce lots of dry matter

Contains

Star/Syntilla	*Italian Dip RG*	*2kg*
Teanna	*Italian Tet RG*	*3kg*
Aston Crusader	*Hybrid RG*	*2kg*
Calibra/Nolwen	*Tet PRG*	*3kg*

Other Ley Mixtures available include:

Supreme Horse & Pony	(13.5kg acre pk)	£55.50
Permanent Ley Mix	(14kg acre pk)	£63.50

Whatever mix you require our bespoke service can create it for you – just ask BMR!

This price list is based on a minimum order of 10 acre packs (delivery time 3-5 days). Smaller orders priced on application. All seed is royalty paid, certified and supplied in one acre woven polypropylene sacks. Mixes take into account current SRUC recommendations and we contribute to the SRUC Grass Levy Scheme.

We can supply a seed mix especially for you

Grass and Herbal Leys
We offer top quality grass seed mixtures. Our Herbal Leys are made up of grasses, herbs and legumes to help deliver soil fertility, structure & boost livestock health. Choose from our range or ask for a mix to suit you.

Seed Mixes for Every Situation
We can supply an extensive range of specialist seed mixes. These are developed by seed experts and produced in Yorkshire.

Bespoke Seed Mixes
Create your own custom seed mixtures from over 150 species of grass, wildflower, legumes, brassicas and herbs.

Organic Range
Our Organic Range meets most growers' needs and choices for re-seeding. If you have a requirement for specialist mixtures we can help; if you don't see the varieties you are looking for just ask and we will produce any special mix you request.

Creating Diverse Habitats
We can supply seed mixtures to promote farmland and landscapes biodiversity. Our range includes seed mixtures to comply with Countryside Stewardship (CS) and Sustainable Farming Incentives (SFI) for those farming in England and for Ecological Focus Areas in Scotland. The range is designed to establish diverse habitats across various land types. Beyond our standard mixtures, we can formulate and supply bespoke seed blends for land managers with unique and specific requirements.

Cover Crops
Our Cover crop range is designed to protect and improve arable soils between regular crop production by increasing carbon sequestration, increasing organic matter content and reducing nutrient runoff and soil erosion. Ahead of regular crop drilling, cover crops can be terminated by livestock, gaining additional value from cover crop systems.

All Cover Crop mixes come in two acre packs

Bespoke mixtures are a speciality

Allow us to price your favoured grass seed mixture on a per acres or kilo basis
