## PROFILE

I am a Full Stack Software Engineer with a background in UX Design.

With a user-centric design approach combined with analytical coding skills and exceptional team collaboration, I strive to bridge the gap between Design and Development.

## SKILLS

### UX/UI Design:

Double Diamond Design Process, Figma, Adobe Tools

### Front-End Development:

HTML, SCSS, DOM, JavaScript, React, Testing

### Back-End Development

Node, Express, MySQL, Agile, User Authentication, API

## EXPERIENCE
