REGAL

VOICE AI AGENTS FOR LENDING

Automate lead qualification, servicing, and collections with compliant workflows.

CLOSE MORE CONTRACTS, WHILE STAYING COMPLIANT

ā360inc™

The Problem: For a360inc, manual notary outreach drove up labor costs. The result: negotiations were inconsistent and left orders unfilled.

Voice AI agents introduced a workflow that automatically contacted notaries, captured structured bid data, and negotiated prices consistently at scale.

LOAN SERVICES USE CASES

- Qualify Borrower Leads
- Schedule Consultations
- Collect notary payments
- Answer Term Questions
- Process Refinancing Requests
- Send Payment Reminders

THE REGAL SOLUTION

Negotiated with more notaries with an agentic workflow, **reducing time-to-fill and minimizing unfulfilled orders**

Structured bid data provided deeper pricing intelligence, **enabling higher contract signing prices**

Kept negotiations fair by rotating agents and applying dynamic pricing, with hands-on configuration

DRIVING OUTCOMES

$1M+
Saved on Manual Bid Collection

80%
Cost Reduction per Call

95%
Positive Contact Sentiment

"With Regal, we've reimagined notary engagement—**all while delivering speed, reliability, and scale for the future."**
