

CHAIN LINK FENCE

The product

Although it's the most common type on the market, easily recognisable by its diamond-shaped mesh, chain link fence is a hybrid product that is both attractive and high quality.

Suitable for all types of environments and extremely robust, it's the basic component of many modern fences, sport fields, industrial and residential areas and tennis courts.

Barbelé Sécurité simple twist mesh is a durable and effective solution for fencing sensitive sites, easily meeting the most stringent requirements.

Characteristics

Duralinox ● Galvanised ● Anthracite 7016 ● Green 6005 ● Black 9005 ● White 9010 ○

FINISH	DIAMETER (mm)	MESH (mm)	WEIGHT (kg/m²)	HEIGHT (m)
Galvanised Standard Zinc content 60g/m²	2	50	0.90	All heights from 0,5 à 4
	2,7	50	1.75
