

### **Call Before You Dig:**

To ensure safety and protect buried utilities please call 811 before you dig on your property, even if you plan on hiring a professional - such as planting a tree, putting up fencing, or doing other construction work. You will be directed to the appropriate local 811 center. The call is free.

Anyone who plans to dig should contact 811 and/or go to your state 811 center's website before digging to request that the approximate location of buried utilities be marked with paint or flags. This avoids unintentionally damaging an underground utility line.
