How to wear

-Distinguish the left and right channels-

The CHU II is around the ear design, which enhances the stability and comfort for daily use or outdoor use. You can wear it as the pictured showed, please note that don't reverse. There are L and R indicator on the cable to correspond to L and R!

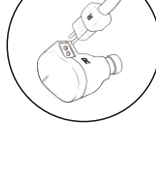

-Ear Tips-

Please choose silicone eartips with proper size to ensure proper wearing and fit your ear canal perfect to prevent the bass leakage and the highs reduction.

-Tips for headphone cable installation-

In order to avoid poor connection or unstability during use, the cable is tightly connected with earphone socket. When plug or unplug the cable, please hold the cable terminal and parallel to 0.78 2pin. Do not rudely install the cable to prevent the headphone or cable from damage.

The storage of earphone

Please don't use any winder or other tool, which will cause irreversible damage to the cable.

Please avoid pulling or over-bending the fragile parts of cable (such as plug, Y-slip, and socket), or the cable may be damaged.

Please avoid the unnecessary damage caused by incorrect usage/storage habits, Wrong or rude storage methods will result in single earpiece silence, cavity shell opening, and cable damage.

Good storage helps to prolong the life of earphones and reduce the probability of earphone failure.

Notice

Please keep the earphone clean to prevent dust or earwax from clogging the filter, or attaching it to the diaphragm to affect the sound quality.

For your safety, please don't use earphones when driving, riding, or crossing the road.

In winter or dry environments, the metal shells may cause slight tingling of the ear, which is occurred by static electricity in the body or clothes, it's a normal phenomenon.

Your hearing will be affected by too high volume to listen to and caused irreversible damage for a long time. Please form a good habit of listening at an appropriate volume to protect your hearing.

Wearing earphones for too long may cause congestion of the ear canal due to compression, please stop using earphones when uncomfortable with the ear canal.

When using the earphone with a sound insulation effect, please don't press the earphone forcibly or remove it quickly, due to the high sealing performance of earphones, otherwise, it may be damaged the eardrum and diaphragm.

The earphone tips made of silica gel will absorb dust or earwax and may grow bacteria for a long time, please replace them regularly.

Please avoid wearing earphones when sleeping to prevent damage to hearing and earphones. If tinnitus, inflammation, ear canal abscess, and other symptoms occur, please stop using earphones and make a treatment.

If the earphone fails, please refer to the after-sales terms.
