Earphones Wearing

-Identify the Left and Right channels-

CHU IEMs is designed to be worn around the ear, enhancing the stability and comfort of the wearing, which is convenient for you to use outdoors or in daily use. Due to the asymmetrical left and right, the wearing picture cannot be interchanged. There are LR embossed characters on the line to correspond to the left and right.

-The use of Eartips-

Choosing suitable size silicone eartips will ensure comfortable wearing and fitting and sealing and deep enough into the ear canal. It will prevent

bass loss caused by sound leakage and treble attenuation caused by long sound channels.

Earphone Storage

Please do not use any cable winder or cable box on the market, which will cause irreversible damage with long-term use.

Please avoid pulling or excessive bending on the fragile parts of the earphone cable (such as the plug, the branch cable, and the earphone inlet), otherwise, the cable may be damaged.

Wrong or rough storage methods are usually the culprit that causes the earphones to be silent on one side, the cavity is opened, the wire is broken, or the wire is broken. Please avoid bad usage habits to avoid unnecessary damage.

Good storage methods help to extend the life of the earphone and greatly reduce the probability of earphone failure.

Notes

Please keep the earphones clean to prevent dust or earwax from entering and blocking the filter or adhering to the diaphragm, which may affect the sound quality.

Interface do not frequently or excessively force the plug-in interface to prevent irreversible damage to the female socket. For your safety, please do not use earphones while driving, cycling or crossing roads.

Listening to headphones at a loud volume may affect your hearing, and may cause irreversible damage to your hearing for a long time. A good habit of listening at an appropriate volume will protect your hearing.

Wearing earplugs for too long may cause congestion in the ear canal due to pressure. Please stop using the earphones when wearing earplugs for a long time causes discomfort in the ear canal.

Earphones with sound insulation effects have a high degree of sealing, please do not press the earphones hard or take off the earphones quickly, otherwise, it may cause damage to the eardrum and diaphragm.

The earplugs made of silica gel will absorb dust or earwax. Long-term use may cause bacteria to grow. Please replace them regularly.

Please avoid wearing earphones to sleep to prevent hearing damage and damage to earphones.

If symptoms such as tinnitus, inflammation, or ear canal discharge occur, please stop using headphones and go to the hospital for medical treatment.

If the earphone fails, please refer to the [After-sales terms].

After-sales terms

This product can enjoy a seven-day replacement and one-year warranty service if there is a non-human-caused failure from the date of shipment. If there is accident insurance caused by improper use, payment will be provided according to the terms of the insurance.
