

TREE SPECIES*	SCIENTIFIC NAME	GROWTH RATE	MATURE SIZE	FLOWER COLOR & SEASON	SALT TOLERANCE (WIND/WATER)	DROUGHT TOLERANCE	LIGHT REQUIRED
Bay Cedar	<i>Suriana maritima</i>	Moderate	6 – 10 feet	Small yellow flowers all year	High / Medium	High	Full sun
Black Ironwood	<i>Krygiodendron ferrum</i>	Slow	20 – 25 feet	Small greenish-yellow flower, peak bloom spring to summer.	Moderate / Low	High	Full sun to light shade
Blolly	<i>Guapira discolor</i>	Moderate	10 – 25 feet	Inconspicuous greenish-yellow flower, peak bloom spring to summer.	High / Low	Moderate	Full sun to light shade
Buttonsage – Bush Form	<i>Lantana involucrata</i>	Fast to Moderate	4 – 8 feet	White or pink flower with yellow center, blooms year-round, fragrant.	High / Low	High	Full sun
Cinnamon Bark – Bush Form	<i>Canella winterana</i>	Slow	15 – 20 feet	Red flower with yellow anthers, peak bloom spring and summer.	Moderate / Moderate	Moderate	Full sun to light shade
Fiddlewood – Bush Form	<i>Citharexylum spinosum</i>	Slow	15 – 35 feet	White flowers in summer months; fragrant; trumpet-shaped	Low	High	Partial sun
Firebush – Bush Form	<i>Hamelia patens</i>	Fast	5 – 20 feet	Narrow tubular red to red-orange flowers, all year	Moderate / Low	Moderate / High	Full sun to partial shade
Green Buttonwood – Tree Form	<i>Conocarpus erectus</i>	Moderate	30 feet	Greenish-white flower, blooms year-round.	High / Moderate	High	Full or partial sun
Jamaica Caper – Bush Form	<i>Capperis cyniphallophora</i>	Slow to Moderate	6 – 12 feet	Fragrant flowers – Opens white, turning pink within a few hours.	High / Moderate	High	Full sun to light shade
Lignum Vitae	<i>Guaiacum sanctum</i>	Very slow	10 – 30 feet	Showy bluish-purple flower, peak bloom in spring.	Moderate / Low	High	Full sun
Locust Berry – Bush Form	<i>Byrsonima lucida</i>	Slow to Moderate	5 – 15 feet	White to pink flowers turning red when older, peak bloom spring to summer.	Moderate / Low	High	Full sun to light shade
Maidenbush – Bush Form	<i>Heterosavia bahamensis</i>	Slow	8 – 12 feet	Small white to green flower, peak in spring.	Moderate /Low	High	Full sun to partial shade
Marlberry	<i>Ardisia escallonioides</i>	Moderate	12 – 20 Feet	pleasant fragrance; white flowers periodically throughout the year	Unknown	Moderate	Partial shade to partial sun
Seven Year Apple	<i>Genipa clusiifolia</i>	Slow to moderate	5 – 15 feet	White, star-shaped flower, peak bloom spring to summer.	High / Low	Moderate	Full sun to light shade
Silver Buttonwood – Tree Form	<i>Conocarpus erectus</i>	Slow to Moderate	20 – 35 feet	Small, inconspicuous white flower, peak in summer.	High / Moderate	High	Full sun or partial shade
Smooth Strongback	<i>Bouerreria succulenta</i>	Moderate	10 – 15 feet	White flower, peak bloom summer to fall.	Moderate / Low	High	Full sun to light shade
Spanish Stopper	<i>Eugenia foetida</i>	Slow to Moderate	8 – 15 feet	Features small, glossy leaves and white flowers that bloom primarily in summer.	High / Moderate	Moderate / High	Full sun to partial shade
Spicewood	<i>Calyptranthes pallens</i>	Slow to Moderate	15 – 20 feet	Fragrant greenish white flowers / dark red berries, spring-fall.	Moderate / Low	Moderate	Full sun to light shade
