Conforms to: PN-EN 1176-1+A1:2024-03

1m Round Trampoline

Materials & Construction

Frame: galvanized steel profile, powder-coated

Impact-absorbing surround: recycled rubber with EPDM additive

Jumping mat: demountable with springs using the dedicated tool included with the trampoline

Jumping mat elements: manufactured from plastic

Warranty: 48 months whole unit, 10 years HDPE panels, 15 years structural strength

In accordance with PN-EN 1176-1+A1:2024-03, this product requires impact-absorbing surfacing appropriate to its free-fall height.

The equipment shown is a computer visualisation only; the actual product will look similar. Colours may vary from those shown. Construction materials can be tailored to the customer's requirements. Dimensional tolerance +/- 5 cm.

Why Choose This Product

A popular round in-ground trampoline with a 105 cm diameter jumping mat, well suited to public playgrounds, school grounds and community parks. Flush-mounted for safe, barrier-free access from any direction, it encourages active, energetic play for children of all ages. Galvanized steel construction with recycled-rubber/EPDM surround for years of reliable outdoor use.

- 105 cm diameter jumping mat — comfortable space for active, energetic bouncing
- Flush-mounted design: no trip hazards, accessible from every direction
- Galvanized steel frame with recycled-rubber/EPDM impact-absorbing surround
- Jumping mat demountable with springs using the included dedicated tool
- Certified to PN-EN 1176-1+A1:2024-03 for public playground safety
