● FREE-FALL HEIGHT  
**2 m**

Recommended age: 3-14 years

Conforms to: BS EN 1176-1+A1:2024

### Dimension Drawing

## Rhino Play Structure (Robinia) Materials & Construction

Structure of robinia-acacia timber beams
Anti-corrosion treated bolts and connections
Ø16 PP rope with steel reinforcement
Stainless-steel bars
AISI 304 stainless-steel slide
Coloured HDPE panels
Bolts capped with plastic covers where required

**In accordance with BS EN 1176-1+A1:2024, this product requires impact-absorbing surfacing appropriate to its free-fall height.**

*The equipment shown is a computer visualisation only; the actual product will look similar. Colours may vary from those shown. Construction materials can be tailored to the customer's requirements. Dimensional tolerance +/- 5cm. Due to the natural, irregular shape of the acacia, dimensions may vary from those stated.*

### Why Choose This Product

The Rhino Play Structure is a destination centrepiece sculpted from robinia-acacia timber. Platforms, net bridges, ramps and a slide turn the full-size rhino into a multi-level world for climbing and role-play, with natural timber giving every installation its own character.

- Full-size robinia-acacia rhino as a destination landmark
- Multi-level platforms, net bridges, ramps and slide
- Durable natural timber - each unit unique
- Certified to BS EN 1176-1+A1:2024
