

# Dodecahedron Climbing Sphere

## Technical Data

**DIMENSIONS**

**Ø 2.1 m**

**HEIGHT**

**1.95 m**

**SAFETY ZONE**

**Ø 5.8 m**

**FREE-FALL HEIGHT**

**1.95 m**

**Conforms to: BS EN 1176-1:2017**

# Dodecahedron Climbing Sphere

## Materials & Construction

**Construction:** galvanised, powder-coated steel sheets

**Climbing surface:** coloured HDPE panels

**Holds:** durable plastic climbing holds

**Fixings & anchoring:** anti-corrosion treated, plastic-capped bolts; permanent ground anchoring

**In accordance with BS EN 1176-1:2017, this product requires impact-absorbing surfacing appropriate to its free-fall height.**

*The equipment shown is a computer visualisation only; the actual product will look similar. Colours may vary from those shown.*

*Construction materials can be tailored to the customer's requirements. Dimensional tolerance +/- 5cm.*

## Why Choose This Product

A striking geometric climbing ball that packs genuine three-dimensional challenge into a small, circular footprint — a neat fit for compact play spaces.

- Sculptural dodecahedron form with climb-through openings and an interior den
- Coloured HDPE panels on a galvanised, powder-coated steel frame
- Certified to BS EN 1176-1:2017 for public playground safety
