Fixings: anti-corrosion, plastic-capped bolts

In accordance with BS EN 1176-1+A1:2024, this product requires impact-absorbing surfacing appropriate to its free-fall height.

The equipment shown is a computer visualisation only; the actual product will look similar. Colours may vary from those shown. Construction materials can be tailored to the customer's requirements. Dimensional tolerance +/- 5cm.

Why Choose This Product

A tall, energetic spinner with four seats hung from a vertical central mast. Children push off and ride outward as it turns, generating the fast, swinging motion older children love - a real focal point for busy playgrounds and recreation grounds.

- Constructed from a galvanised, powder-coated steel mast with four chain-hung seats and a sealed central bearing
- Certified to BS EN 1176-1+A1:2024 for public playground safety
