In accordance with BS EN 1176-1, this product requires impact-absorbing surfacing appropriate to its free-fall height.

The equipment shown is a computer visualisation only; the actual product will look similar. Colours may vary from those shown. Construction materials can be tailored to the customer's requirements. Dimensional tolerance +/- 5cm.

Why Choose This Product

A compact two-seat swing frame for general playground use, suited to smaller play areas where width is limited. A choice of seat types adapts it to different age groups.

- Constructed from galvanised, powder-coated steel with calibrated chains and a choice of seat types
- Certified to BS EN 1176-1 for public playground safety
