Why Choose This Product

The Compact Street Workout Corner gives teenagers and adults a full-height calisthenics station within a narrow footprint, suiting a corridor of space along a boundary, path or fence line where a wider rig wouldn't fit.

- Narrow-footprint calisthenics station for tight spaces
- 80 x 80mm anti-corrosion treated steel frame
- Certified to BS EN 1176-1:2017 for public playground equipment
- Backed by 48-month warranty (10yr HDPE, 15yr structural)
