## Why Choose This Product

A fixed excavator that lets children move real sand with real machinery. Sitting on the moulded seat and working the twin handles, young operators swing, dig, lift and dump scoop after scoop — building coordination, upper-body strength and persistence, and giving any sandpit a working focal point.

- Real digging action — swing, scoop, lift and dump with twin handles
- All-stainless construction with no coatings to chip in a sand environment
- Certified to BS EN 1176-1:2017 for public playground safety
- Backed by a 48-month warranty (10yr HDPE, 15yr structural)
