Construction materials can be tailored to the customer's requirements. Dimensional tolerance +/- 5cm.*

Why Choose This Product

The Skyline Commercial Zip Wire delivers the classic thrill of flight in a compact, single-line format built for schools, parks and community play areas. Riders launch from the raised take-off and glide the length of the steel cable on a smooth-running trolley to a gentle sprung stop. Constructed from heavy-duty galvanised steel with a moulded TPE seat and anti-slip decking, it is engineered for years of heavy public use.

- A single-seat cable ride that builds balance, coordination and confidence
- Heavy-duty galvanised, powder-coated steel frame for years of outdoor use
- Smooth-running trolley on a 10mm steel cable with sprung end stop
- Certified to BS EN 1176-1:2017 for public playground safety
