Why Choose This Product

The Star-Handle Carousel adds light to a compact playground classic. As children push off and spin, the carousel's own motion powers colourful lights built into the steel frame, with no batteries or mains supply to maintain. Three curved handles arranged in a star give up to four riders a secure hold on the 1.3 m platform, while the graphite frame, blue deck and orange detailing give any play area a modern look. A compact, low-maintenance choice for schools, parks and play areas.

- Motion-powered colour lighting, with no batteries or mains supply required
- Three star-arranged handles for a secure hold for up to 4 riders
- Compact 1.3 m platform in powder-coated steel with an HPL deck
- Certified to BS EN 1176-1 for public playground safety
