Why Choose This Product

The Speed Race panel turns a racetrack into a glowing sensory game. Children spin the cars' wheels and the trackside lights to set them glowing in colour, racing one another from the start line to the chequered flag while building fine motor control, hand-eye coordination and turn-taking. Adapted for children who use wheelchairs, it lets up to four children play side by side, making it a natural fit for SEND schools, nurseries and inclusive public playgrounds.

- 28 spinning wheels that light up in colour as children turn them
- Adapted for wheelchair users, so up to 4 children can play side by side
- Galvanised, powder-coated steel posts with a tough 15 mm HDPE play board
- Certified to BS EN 1176-1 for public playground safety
