Conforms to: BS EN 1176-1

Emperor Chimes Giant Outdoor Chime Set

Materials & Construction

Chimes: set of six tall silver chimes, the tallest approx. 2.5 m
Tuning: C major pentatonic, one octave (C3–C4)
Playing: struck with the palm or fingertips – no mallets needed
Mounting: ground fix as standard; surface-fix version available
Sound level: approx. 91 dB under 3 m · 61 dB at 10 m · 53 dB at 50 m
Access: playable from all sides, including from a wheelchair
Siting: avoid direct sunlight; confirm free space in the site risk assessment

This product is played from ground level and is not designed to be climbed, so impact-absorbing surfacing under BS EN 1177 is not required. Keep the recommended free space clear around the instrument.

The equipment shown is a representative image only; the actual product will look similar. Colours and finishes may vary from those shown. Dimensional tolerance +/- 5cm.

Why Choose This Product

Emperor Chimes are the tallest chimes in the range, with the largest standing around 2.5 metres high. Six chimes form a complete C major pentatonic octave, and a light strike with the hand anywhere along a tube produces a soft, rich tone. Strike harder and the vibration builds until it can be felt through the whole body – a powerful sensory experience that makes them a natural centrepiece for sensory gardens and inclusive play spaces.

- Six giant chimes tuned to a C major pentatonic octave (C3–C4)
- Deep, resonant tones you can hear and feel – strongly sensory
- Played by hand from all sides, including from a wheelchair
- Played from ground level – no impact-absorbing surfacing required
