Baby Outdoor Floor Piano

Materials & Construction

Notes: 13 chromatic notes spanning one octave (C5–C6)

Sound: sub-surface bells beneath each tread plate

Construction: heavy-duty stainless steel with checker-plate surround

Installation: flush with finished ground level in a drained concrete base

Groundworks: excavation approx. 2180 x 1280 x 370 mm, connected to drainage

Playing: feet, hands, wheelchairs or mobility aids

This floor piano is installed flush with the ground and played underfoot, so impact-absorbing surfacing under BS EN 1177 is not required.

The equipment shown is a representative image only; the actual product will look similar. Colours and finishes may vary from those shown. Dimensional tolerance +/- 5cm.

Why Choose This Product

The Baby Floor Piano packs the fun of a giant outdoor floor piano into a compact footprint. Thirteen chromatic notes from C5 to C6 invite children and adults to jump, dance and run across the keys, with clear tones produced by bells hidden beneath the surface. Installed flush with the ground in heavy-duty stainless steel, it is fully accessible to wheelchair users and ideal for school playgrounds, parks and inclusive play spaces where movement and music meet.

- 13 chromatic notes (C5–C6) played by jumping, dancing or rolling across
- Flush-to-ground installation – step-free and wheelchair accessible
- Heavy-duty stainless steel with sub-surface bells
- Compact footprint for smaller outdoor spaces
