Goliath III Commercial Rope Swing

Materials & Construction

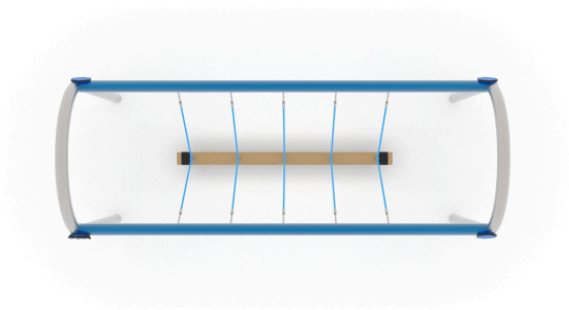

Frame: galvanized S235JR steel tube, 114.3mm diameter, powder-coated
Decking: 3-layer colored HDPE panels, min. 12mm thick, UV and weather resistant
Suspension: 140x140mm PP rope, 16mm reinforced hanging ropes, aluminium clamps, galvanized calibrated technical chains
Fixings: anti-corrosion treated, plastic-capped bolts
Warranty: 48 months whole unit, 10 years HDPE panels, 15 years structural strength

In accordance with BS EN 1176-1+A1:2024, this product requires impact-absorbing surfacing appropriate to its free-fall height.

The equipment shown is a computer visualisation only; the actual product will look similar. Colours may vary from those shown. Construction materials can be tailored to the customer's requirements. Dimensional tolerance +/- 5cm.

Why Choose This Product

The Goliath III is a striking rope-and-balance swing built for active group play, accommodating up to 4 children at once. Riders swing, rock and balance together on a suspended rope beam seat, building coordination, core strength and social interaction in equal measure. Constructed from heavy-duty galvanized steel tube with UV-stable HDPE detailing and reinforced PP rope suspension, it's engineered for years of outdoor use.

- Built for active group play — up to 4 children swinging, rocking and balancing together
- Heavy-duty galvanized steel frame with UV-stable HDPE detailing for years of outdoor use
- Certified to BS EN 1176-1+A1:2024 for public playground safety
- Backed by a 48-month warranty as standard (10 years on HDPE panels, 15 years structural)
