Children's Air Walker

Materials & Construction

Frame: Ø114.3 mm steel tube, powder-coated
Secondary tubes: Ø60.3 mm and Ø42.4 mm steel tube, powder-coated
Footplates: HDPE
Fixings: Stainless steel bolts
Colours: Lime (NCS 1070-G50Y) and navy (RAL 5003) as standard
Foundations: Precast concrete base set 40 cm below ground, or poured concrete (min. C20/25) set 5 cm below ground

With a free-fall height of 0.36 m, this unit can sit on grass or turf, or on any EN 1177 impact-absorbing surface. We'll recommend the right finish for your site.

Images are computer visualisations; the installed product will look similar. Colours may vary from those shown.

How to Use

Air walker

Hold the handle with both hands, stand on the footplates and swing the legs alternately forwards and backwards in a smooth running motion.

Benefits:

Works the leg and hip muscles, improves balance and builds good running technique.

Inspection & Maintenance

Routine visual check weekly (daily on busy or vandal-prone sites), an operational check every 1–3 months and a main inspection once a year. Replace worn or damaged parts promptly with genuine spares. Morti Sport & Play offers annual inspection and maintenance for school and public sites.

Why Choose This Product

A child-sized air walker that turns a natural running movement into low-impact exercise. Children grip the handle, stand on the footplates and stride forwards and back, building leg strength, balance and coordination without strain on the joints.

- Sized for children, with no added resistance — natural, intuitive movement
- Heavy Ø114 mm steel frame with stainless fixings for high-footfall sites
- Certified to BS EN 1176-1; free-fall height just 0.36 m
- Designed, supplied and installed by Morti Sport & Play's own teams
