

## Circular Rope Trim Trail

Continuous rope adventure loop with climbing, balance and spinning

### Functions

- Climbing
- Balance
- Agility
- Crawling
- Spinning
- Group play

### Technical Data

DIMENSIONS (L x W)

**9.14 x 9.08 m**

HEIGHT

**2.24 m**

SAFETY ZONE

**13.04 x 12.35 m (112.0 m<sup>2</sup>)**

FREE-FALL HEIGHT

**2.00 m**

Capacity: 44 users    Recommended age: 4–14 years    Safety zone area: 112.0 m<sup>2</sup>

Conforms to: BS EN 1176-1:2017+A1:2023

### Play Activities

- **Climbing nets** — vertical and angled nets around the loop
- **Crawl tunnel** — net tunnel to crawl through
- **Hanging-rope traverse** — knotted ropes to swing and step across
- **Zig-zag rope crossing** — criss-cross ropes that test balance
- **Rope bridge** — net bridge between the posts
- **Spinning element** — stainless steel spinner for vestibular play

# Circular Rope Trim Trail

## Materials & Construction

**Frame:** Hot-dip galvanised and powder-coated steel posts, 100 x 100 mm profile

**Spinning element:** Stainless steel construction

**Platforms:** Anti-slip, waterproof HPL

**Ropes:** Steel-core rope with polypropylene braid; plastic, stainless steel or aluminium connectors

**Chains:** Calibrated stainless steel chains to prevent finger entrapment

**Bars, rims & fittings:** Stainless steel

**Grips & rungs:** Synthetic material

**Fixings:** Cap-covered or stainless steel screws; polypropylene post caps

**Foundations:** Concrete footings 60–80 cm deep on level ground

## Safety Surfacing

Free-fall height is 2.00 m, so impact-absorbing surfacing is needed across the impact area: a synthetic surface tested to EN 1177 for a critical fall height of at least 2.00 m, or 300 mm of loose-fill bark, woodchip or sand. We'll specify and quote the right surface for your site.

*Images are computer visualisations; the installed product will look similar. Colours may vary from those shown. Alternative colour options are available.*

## Inspection & Maintenance

Routine visual check weekly (daily on busy or vandal-prone sites), an operational check every 1–3 months and a main inspection once a year, in line with BS EN 1176-7. Check ropes, connectors and fixings for wear and keep loose-fill surfacing topped up. Morti Sport & Play offers annual inspection and maintenance.

## Why Choose This Product

- A whole trim trail in one continuous loop
- Room for 44 users — ideal for whole-class sessions
- Heavy 100 mm galvanised, powder-coated steel frame
- Certified to BS EN 1176-1; installed by our own teams

Designed, supplied and installed by Morti Sport & Play's own teams, with a BS EN 1176 handover pack on completion. Ask us for a site visit, layout drawing and surfacing quote.
