Ladybird-Themed Play Tower with Slide

Materials & Construction

Frame: 70 × 70 mm steel posts, anti-corrosion protected and powder-coated; stainless steel and powder-coated steel profiles and tubes

Slide: AISI 304 stainless steel sheet

Panels & deck: Coloured HDPE panels; anti-slip film-faced plywood deck

Rope: Ø16 mm steel-reinforced polypropylene rope

Connectors & fixings: Aluminium and high-grade plastic connectors; all bolts and profile ends capped

Free-fall height is 1.20 m, so impact-absorbing surfacing is required across the impact area: EN 1177-tested synthetic surfacing rated to at least 1.20 m, or loose-fill bark, woodchip or sand at 300 mm depth. We'll recommend the right finish for your site.

Images are computer visualisations; the installed product will look similar. Colours may vary from those shown.

How to Use

Climbing up

Children climb the rope ladder at the back to reach the platform inside the ladybird.

Benefits:

Builds grip and coordination.

Sliding down

From the platform, children slide down the stainless steel slide.

Benefits:

Adds speed and fun.

Crawl-through

The round spot opening gives a crawl-through and peek-out space.

Benefits:

Encourages imaginative play.

Inspection & Maintenance

Routine visual check weekly (daily on busy or vandal-prone sites), an operational check every 1–3 months and a main inspection once a year. Check rope tension, connectors and fixings, and keep loose-fill surfacing topped up. Replace worn or damaged parts promptly with genuine spares. Morti Sport & Play offers annual inspection and maintenance for school and public sites.

Why Choose This Product

A ladybird-shaped play tower with a stainless steel slide, a rope ladder and a crawl-through spot. Its friendly design suits nurseries, infant schools and family parks.

- A friendly focal point for younger children's play areas
- Stainless steel slide and coloured HDPE panels
- Certified to BS EN 1176-1; free-fall height 1.2 m
- Designed, supplied and installed by Morti Sport & Play's own teams
